                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |  |  | | Peak      | <div><p>Vertical Peak Spectrum Plot showing Level (dBuV/m) vs Frequency (MHz) from 5600 to 6000 MHz. The plot shows a blue signal line with four peaks labeled 1, 2, 3, and 4. A red limit line is shown above the signal. The signal level is approximately 48.8 dBuV/m at 5600 MHz and rises to about 97.5 dBuV/m at 5700 MHz.</p></div> <table><thead><tr><th></th><th>Limit</th><th>Over</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>Aux</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Limit</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th>Factor</th><th></th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr></thead><tbody><tr><td>1 5607.60</td><td>55.09</td><td>68.20</td><td>-13.11</td><td>44.54</td><td>34.50</td><td>12.32</td><td>36.27</td><td>0.00</td><td>300</td><td>17 PEAK</td></tr><tr><td>2 5658.00</td><td>51.00</td><td>68.20</td><td>-17.20</td><td>40.46</td><td>34.50</td><td>12.35</td><td>36.31</td><td>0.00</td><td>300</td><td>17 PEAK</td></tr><tr><td>3 5700.80</td><td>54.17</td><td>105.52</td><td>-51.35</td><td>43.52</td><td>34.60</td><td>12.40</td><td>36.35</td><td>0.00</td><td>300</td><td>17 PEAK</td></tr><tr><td>4 5721.20</td><td>55.06</td><td>113.64</td><td>-58.58</td><td>44.39</td><td>34.64</td><td>12.42</td><td>36.39</td><td>0.00</td><td>300</td><td>17 PEAK</td></tr></tbody></table> |        |        |       |        |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Limit  | Over | Read       | Ant | Cable | Preamp | Aux  | APos | TPos | Remark | Freq   | Level | Line | Limit | Level  | Factor | Loss  | Factor | Factor |       |        | MHz  | dBuV/m | dBuV/m | dB | dBuV | dB/m | dB     | dB     | dB | cm   | deg  | 1 5607.60 | 55.09 | 68.20 | -13.11 | 44.54 | 34.50     | 12.32 | 36.27 | 0.00  | 300   | 17 PEAK | 2 5658.00 | 51.00 | 68.20 | -17.20 | 40.46      | 34.50 | 12.35 | 36.31 | 0.00 | 300 | 17 PEAK | 3 5700.80 | 54.17 | 105.52 | -51.35 | 43.52 | 34.60 | 12.40 | 36.35 | 0.00 | 300 | 17 PEAK | 4 5721.20 | 55.06 | 113.64 | -58.58 | 44.39 | 34.64 | 12.42 | 36.39 | 0.00 | 300 | 17 PEAK | <div><p>Fundamental Peak Spectrum Plot showing Level (dBuV/m) vs Frequency (MHz) from 1000 to 7000 MHz. The plot shows a blue signal line with a single peak labeled 1 at 5775 MHz. A red limit line is shown above the signal. The signal level is approximately 48.8 dBuV/m at 1000 MHz and rises to about 97.5 dBuV/m at 5775 MHz.</p></div> <table><thead><tr><th></th><th>Limit</th><th>Over</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>Aux</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Limit</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th>Factor</th><th></th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr></thead><tbody><tr><td>1 5775.00</td><td>103.26</td><td>-----</td><td>-----</td><td>92.36</td><td>34.93</td><td>12.48</td><td>36.51</td><td>0.00</td><td>300</td><td>17 PEAK</td></tr></tbody></table> |  |  |  |  |  | Limit | Over | Read | Ant | Cable | Preamp | Aux | APos | TPos | Remark | Freq | Level | Line | Limit | Level | Factor | Loss | Factor | Factor |  |  | MHz | dBuV/m | dBuV/m | dB | dBuV | dB/m | dB | dB | dB | cm | deg | 1 5775.00 | 103.26 | ----- | ----- | 92.36 | 34.93 | 12.48 | 36.51 | 0.00 | 300 | 17 PEAK |

The plot shows a blue signal line with a single peak labeled 1 at 5775 MHz. A red limit line is shown above the signal. The signal level is approximately 48.8 dBuV/m at 1000 MHz and rises to about 97.5 dBuV/m at 5775 MHz.</p></div> <table><thead><tr><th></th><th>Limit</th><th>Over</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>Aux</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Limit</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th>Factor</th><th></th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr></thead><tbody><tr><td>1 5775.00</td><td>94.23</td><td>-----</td><td>-----</td><td>83.31</td><td>34.96</td><td>12.48</td><td>36.52</td><td>0.00</td><td>300</td><td>17 AVERAGE</td></tr></tbody></table> |        |      |            |     |       | Limit  | Over | Read | Ant  | Cable  | Preamp | Aux   | APos | TPos  | Remark | Freq   | Level | Line   | Limit  | Level | Factor | Loss | Factor | Factor |    |      | MHz  | dBuV/m | dBuV/m | dB | dBuV | dB/m | dB        | dB    | dB    | cm     | deg   | 1 5775.00 | 94.23 | ----- | ----- | 83.31 | 34.96   | 12.48     | 36.52 | 0.00  | 300    | 17 AVERAGE |       |       |       |      |     |         |           |       |        |        |       |       |       |       |      |     |         |           |       |        |        |       |       |       |       |      |     |         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |  |  |  |  |       |      |      |     |       |        |     |      |      |        |      |       |      |       |       |        |      |        |        |  |  |     |        |        |    |      |      |    |    |    |    |     |           |        |       |       |       |       |       |       |      |     |         |
