A photograph showing the interior of a laboratory chamber. The chamber has a dark, possibly wooden or metal, upper section and a lower section with a light-colored, textured wall. A horizontal metal beam runs across the middle. Below the beam, there is a grey floor. On the right side, there is a piece of electronic equipment with a blue handle and a yellow label. To its right is a black power supply unit. Various cables and wires are visible, some hanging from the top and others connected to the equipment. The overall environment appears to be a controlled laboratory setting.
