Attestation

We, Zebra Technologies Corporation, attest that this device with FCC ID: UZ7TCW01G complies with the Dual Client (6CD) device protocol and restrictions as below.

1. Protocol Attestation

- a. this device will only associate and connect with a low-power indoor Access Point, subordinate device, or standard access point and never directly link to any other client devices
- b. this device will always initiate transmission under the control of a low-power indoor AP, subordinate, or standard AP, except for brief communications before joining a network. These quick messages will only occur if the client has detected an indoor AP, subordinate, or standard access point operating on a channel. These brief messages will have a time-out mechanism such that they will not continually repeat the request if they do not receive a response from an AP.
- c. this device, when associated and connected with a low-power indoor access point, subordinate or standard access point device, will operate at a power lower as advertised by the indoor access point, subordinate, or standard access point:
 - i. lower or equal to the power advertised by the low-power indoor access point or subordinate and never above the maximum output power allowed by the FCC grant for clients associated with indoor clients or subordinates.
 - ii. lower than 6 dB below the power of the standard access point advertised.

2. Device restrictions:

- a. Control of or communications with unmanned aircraft systems is prohibited, including drones.

A handwritten signature in black ink, appearing to read "D. Solanki", with a horizontal line underneath.
