Regulatory Engineering

April 22, 2016

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Declarations and Authorizations for FCC ID: **UZ7WT6000**

To the Commission:

We, the undersigned, hereby authorize Amanda Wu of Bureau Veritas Consumer Products Services (H.K.) Ltd., Taoyuan Branch (BV CPS Taoyuan) of Taiwan to act on our behalf in all manners relating to FCC application for equipment authorization, including signing of all documents relating to these matters. Any and all acts carried out by Amanda Wu of BV CPS Taoyuan on our behalf shall have the same effect as acts of our own.

If you have any acknowledgement and response, please send it to Bureau Veritas Consumer Products Services (H.K.) Ltd., Taoyuan Branch (BV CPS Taoyuan) directly. Should you have any questions or comments regarding this matter, please don't hesitate to contact me.

Declaration of WLAN Plan:

We, declare that the device, FCC ID: **UZ7WT6000** Model Name: WT6000, does not have "Ad Hoc on non-US frequencies" and/or "on DFS frequencies. Also, the client software and associated drivers will not initiate any transmission on DFS frequencies without initiation by a master. This includes restriction on transmissions for beacons and support for ad-hoc peer-to-peer modes.

(1) Channel / frequency plan for the device

Channel	Frequency (MHz)					Supports		DFS		Mode		
		20 MHz Channel	40 MHz Channel	80 MHz Channel	160 MHz Channel	Active Scanning	Passive Scanning	Client	Master	Ad-Hoc	Hotspot	WiFi Direct
1	2412	1										
2	2417	2										
3	2422	3										
4	2427	4										
5	2432	5										
6	2437	6										
7	2442	7										
8	2447	8										
9	2452	9										
10	2457	10										
11	2462	11										
12	2467	12										
13	2472	13

						Supports		DFS		Mode		
Channel	Frequency (MHz)	20 MHz Channel	40 MHz Channel	80 MHz Channel	160 MHz Channel	Active Scanning	Passive Scanning	Client	Master	Ad-Hoc	Hotspot	WiFi Direct

Legend: Not supported, not enabled

- (2) Country code selection capability to end user- ☐ Yes , ☒ No
If yes, pls explain how it was implemented : (pls also help to provide detail of options for each country selection)
- (3) Meet Part 15.202 requirement - ☒ Yes , ☐ No ,
* A master device is defined as a device operating in a mode in which it has the capability to transmit without receiving an enabling signal. In this mode it is able to select a channel and initiate a network by sending enabling signals to other devices
* A client device is defined as a device operating in a mode in which the transmissions of the device are under control of the master. A device in client mode is not able to initiate a network.
- (4) For client devices that have software configuration control to operate in different modes (active scanning in some and passive scanning in others) in different bands (devices with multiple equipment classes or those that operate on non-DFS frequencies) or modular devices which configure the modes of operations through software, the application must provide software and operations description on how the software and / or hardware is implemented to ensure that proper operations modes can not be modified by end user or an installer.
☐ Apply , ☒ No Apply , (If apply , pls help to provide explanation on it was implement , and how software was controlled)

Pursuant to Sections 0.457 and 0.459 of the Commission's Rules, the Applicant hereby requests confidential treatment of information accompanying this Application as outlined below:

Schematics
Block Diagram
Operational Description / Theory of Operations
Software Operational Description

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to the Applicant and provide unjustified benefits to its competitors.

The Applicant understands that pursuant to Rule 0.457, disclosure of this Application and all accompanying documentation will not be made before the date of the Grant for this application.

We, declare that the device does not support any non-US channels in all the operational mode(s) for the following product.

Respectfully,

Mark S. Luksich
FCC Compliance Officer
