

Quick Installation Guide

Nano 150Mbps(1T1R) Realtek8188 Wireless USB Adapter

Model:WL-700N-RXS

Manufacturer: Blupont Limited

Driver Installation

Please follow the following instructions to install your new wireless USB Adapter:

1. Insert the USB wireless network card into an empty USB 2.0 port of your computer when computer is switched on. Never use force to insert the card, if you feel it's stuck, flip the card over and try again.
2. The following message will appear on your computer, click '**Cancel** / **Close**'.

Under Windows XP

Under Windows Vista and Windows 7

3. Insert the driver CD into your CD-ROM. You can see autorun screen below. if not, you can double click '**autorun.exe**' on CD.

Click '**Install Driver**' to start the installation procedure

4. Installation descriptions shown. Click '**Next**' to continue

5. Once the installation is finished the computer will be asked to reboot. you can click '**Finish**' and reboot the computer to finish the installation of driver files

6. Insert the USB wireless network card into an USB 2.0 port of your computer, the system will find the new hardware and will install the drivers automatically.

7. After finishing driver installation, click adapter utility from your taskbar or programs folder. Click “**available networks**”, select the wireless access point you would like to connect and press “**Add to Profile**” button.

8. fill in the security information if any requirement, and then click “**OK**” to connect the wireless network.

9. Connected successfully. It will show the status screen.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
