

EXHIBIT C - EUT INTERNAL PHOTOGRAPHS

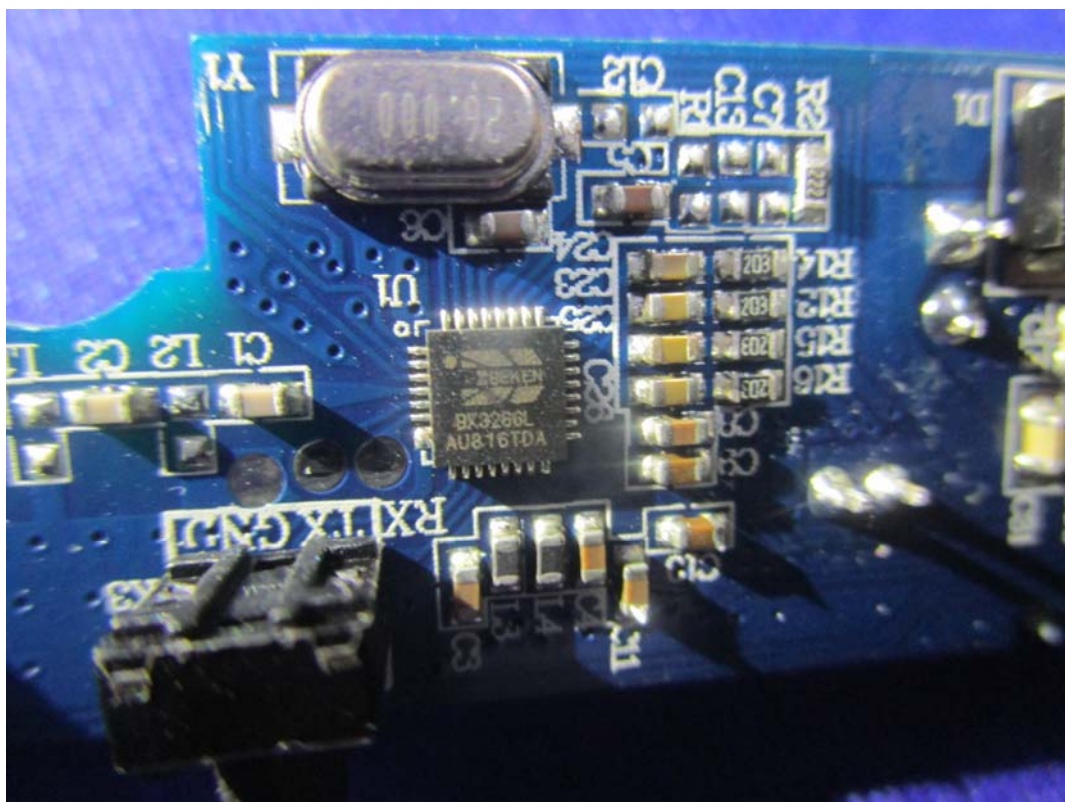

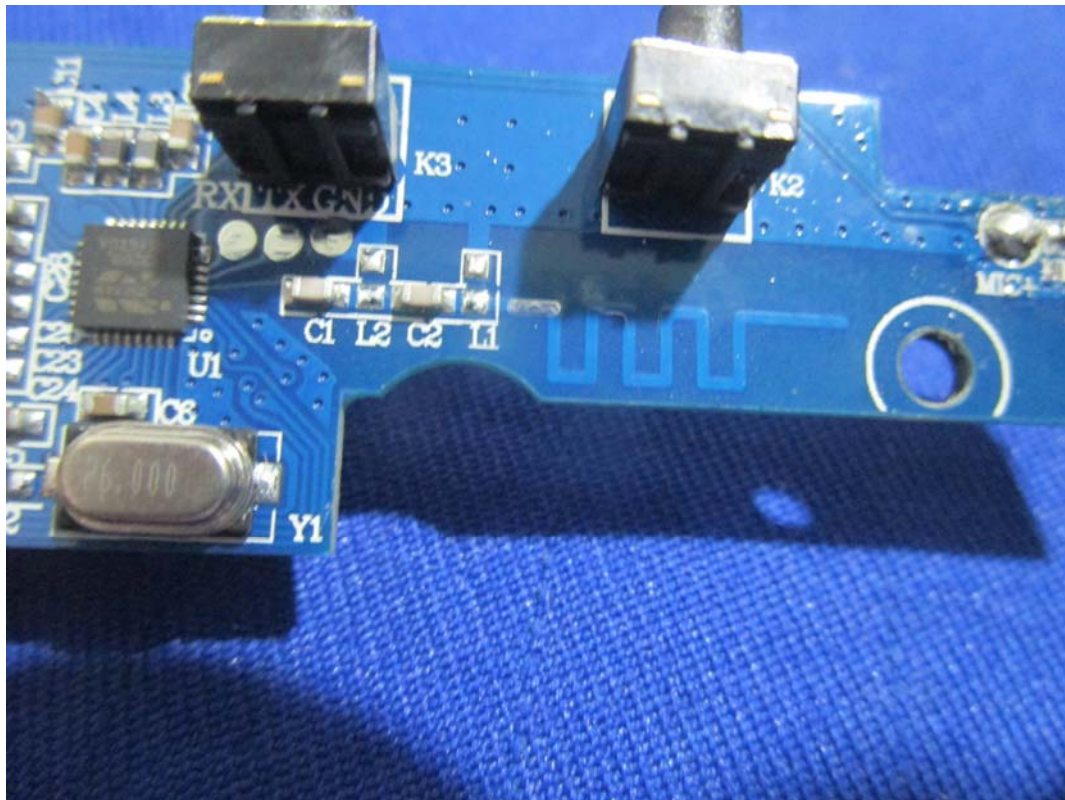

Antenna

The top photograph shows a close-up of the antenna section of a blue PCB. It features two black SMA connectors labeled K2 and K3. Between them are four small surface-mount components labeled C1, L2, C2, and L1. To the left of these is a black integrated circuit labeled U1. Below U1 is a silver oval component labeled Y1 with the value 26.000 printed on it. The PCB has a blue solder mask and various other components and labels are visible.

The bottom photograph shows a wider view of the same blue PCB. It features a silver oval component labeled Y1 with the value 26.000 printed on it. Below it is a black integrated circuit labeled U1. To the right of U1 is a black integrated circuit labeled Y2. The PCB has a blue solder mask and various other components and labels are visible.
