| Peak        |  <p>Horizontal Peak Spectrum Plot showing Level (dBuV/m) vs Frequency (MHz). The plot shows a red line for the limit and a blue line for the measured signal. The signal is below the limit across the frequency range. A peak is labeled 'PEAK_BE(B4)_16-24'.</p> <table><thead><tr><th></th><th>Limit</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Margin</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr></thead><tbody><tr><td>1</td><td>5855.00</td><td>54.31</td><td>110.80</td><td>-56.49</td><td>40.37</td><td>35.88</td><td>10.46</td><td>32.40</td><td>124</td><td>51</td><td>PEAK</td></tr><tr><td>2</td><td>5873.63</td><td>51.75</td><td>105.58</td><td>-53.83</td><td>37.75</td><td>35.93</td><td>10.48</td><td>32.41</td><td>124</td><td>51</td><td>PEAK</td></tr><tr><td>3</td><td>5925.00</td><td>51.45</td><td>68.20</td><td>-16.75</td><td>37.35</td><td>36.03</td><td>10.53</td><td>32.46</td><td>124</td><td>51</td><td>PEAK</td></tr><tr><td>4</td><td>5929.00</td><td>52.42</td><td>68.30</td><td>-15.88</td><td>38.33</td><td>36.03</td><td>10.53</td><td>32.47</td><td>124</td><td>51</td><td>PEAK</td></tr></tbody></table> |        |        |        |        |        |        |        |        |    |         |  | Limit | Read | Ant | Cable | Preamp | APos | TPos | Remark | Freq | Level | Line | Margin | Level | Factor | Loss | Factor |  | MHz | dBuV/m | dBuV/m | dB | dBuV | dB/m | dB | dB | cm | deg | 1 | 5855.00 | 54.31  | 110.80 | -56.49 | 40.37 | 35.88 | 10.46 | 32.40 | 124 | 51 | PEAK    | 2 | 5873.63 | 51.75 | 105.58 | -53.83 | 37.75 | 35.93 | 10.48 | 32.41 | 124 | 51 | PEAK | 3 | 5925.00 | 51.45 | 68.20 | -16.75 | 37.35 | 36.03 | 10.53 | 32.46 | 124 | 51 | PEAK | 4 | 5929.00 | 52.42 | 68.30 | -15.88 | 38.33 | 36.03 | 10.53 | 32.47 | 124 | 51 | PEAK |

| Fundamental |  <p>Fundamental Peak Spectrum Plot showing Level (dBuV/m) vs Frequency (MHz). The plot shows a red line for the limit and a blue line for the measured signal. The signal is below the limit across the frequency range. A peak is labeled 'PART 15.407'.</p> <table><thead><tr><th></th><th>Limit</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Margin</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr></thead><tbody><tr><td>1</td><td>5825.00</td><td>105.66</td><td>-----</td><td>-----</td><td>91.82</td><td>35.77</td><td>10.43</td><td>32.36</td><td>124</td><td>51</td><td>PEAK</td></tr></tbody></table>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |        |        |        |        |        |        |        |        |    |         |  | Limit | Read | Ant | Cable | Preamp | APos | TPos | Remark | Freq | Level | Line | Margin | Level | Factor | Loss | Factor |  | MHz | dBuV/m | dBuV/m | dB | dBuV | dB/m | dB | dB | cm | deg | 1 | 5825.00 | 105.66 | -----  | -----  | 91.82 | 35.77 | 10.43 | 32.36 | 124 | 51 | PEAK    |   |         |       |        |        |       |       |       |       |     |    |      |   |         |       |       |        |       |       |       |       |     |    |      |   |         |       |       |        |       |       |       |       |     |    |      |

|             |  <p>Fundamental Average Spectrum Plot showing Level (dBuV/m) vs Frequency (MHz). The plot shows a red line for the limit and a blue line for the measured signal. The signal is below the limit across the frequency range. A peak is labeled 'PART 15.407 AVG'.</p> <table><thead><tr><th></th><th>Limit</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Margin</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr></thead><tbody><tr><td>1</td><td>5825.00</td><td>95.40</td><td>-----</td><td>-----</td><td>81.56</td><td>35.77</td><td>10.43</td><td>32.36</td><td>124</td><td>51</td><td>AVERAGE</td></tr></tbody></table>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |        |        |        |        |        |        |        |        |    |         |  | Limit | Read | Ant | Cable | Preamp | APos | TPos | Remark | Freq | Level | Line | Margin | Level | Factor | Loss | Factor |  | MHz | dBuV/m | dBuV/m | dB | dBuV | dB/m | dB | dB | cm | deg | 1 | 5825.00 | 95.40  | -----  | -----  | 81.56 | 35.77 | 10.43 | 32.36 | 124 | 51 | AVERAGE |   |         |       |        |        |       |       |       |       |     |    |      |   |         |       |       |        |       |       |       |       |     |    |      |   |         |       |       |        |       |       |       |       |     |    |      |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |  |  |  |  |  |  |
| ANT  | 1
