Re: FCC ID #:V7L300301

Dear Sir or Madam:

We, Simplex Time Recorder Co., received a Grant of Equipment Authorization for the above-referenced equipment on 8/21/2008, a copy of which is attached as Exhibit A. Pursuant to 47 CFR 2.1043(b)(3), we respectfully request you grant a Permissive Change to allow the models 360 and 370 smoke detectors use this FCC ID # V7L300301. The original model 300 and 301 are smoke detectors only and contain the same transceiver circuitry as the 360 and 370 models. The 360 and 370 have multiple fire sensors including smoke detection. The 370 additionally offers CO detection where the 360 is smoke and heat only. The model 301 has tandem capability so the sounder can be turned on remotely. Both the 360 and 370 offer this feature. The transceiver board is a different shape between the 300/301 and 360/370 and there is a slight difference in the wire antenna shape. The antenna length is virtually the same.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Martin Chiarizio', with a long horizontal flourish extending to the right.

Martin Chiarizio
Engineering Manager
Simplex Time Recorder Co.

TCB**GRANT OF EQUIPMENT
AUTHORIZATION****TCB**

Certification
Issued Under the Authority of the
Federal Communications Commission
By:

Timco Engineering, Inc.

Westminster, MA 01441

Attention: Martin Chiarizio , Engineering Manager

NOT TRANSFERABLE

EQUIPMENT AUTHORIZATION is hereby issued to the named GRANTEE, and is
VALID ONLY for the equipment identified hereon for use under the Commission's Rules
and Regulations listed below.

FCC IDENTIFIER: V7L300301
Name of Grantee: Simplex Time Recorder Company
Equipment Class: Part 15 Spread Spectrum Transmitter
Notes: Wireless Smoke Detector

<u>Grant Notes</u>	<u>FCC Rule Parts</u>	<u>Frequency Range (MHZ)</u>	<u>Output Watts</u>	<u>Frequency Tolerance</u>	<u>Emission Designator</u>
	15C	904.3 - 926.3	0.0037		

Power listed is conducted.

This device and its antenna(s) must not be co-located or operating in conjunction with any
other antenna or transmitter. End-users must be provided with specific operating instructions
for satisfying RF exposure compliance.
