[What's included]

Main Unit

Pouch

Micro USB Cable

User Manual

[Function]

[Turn Power On / Off]

[On]

Press and hold the Power On/Off button for 2 to 3 seconds. Then you can hear a beep and the button turns on blue and later flashes blue rapidly in the standby mode for pairing.

[Off]

Press and hold the Power On/Off button for 2 to 3 seconds again. Then you can hear a beep, and the speaker turned off.

[Pairing Bluetooth] * Operating Distance: Max. 10M

Position the Bluetooth device within 1 meter from the speaker.
When the speaker turned on, it automatically enters pairing mode.
When the device search is completed, select SM-100(XXX) from the device list.

[Pairing NFC]

Start the NFC app and move the smartphone slowly above the N mark of the speaker.
When a case is installed into the smartphone, remove the case from it.
When the smartphone is paired completely, the LED stops flashing and keeps blue. To disconnect the pairing, touch the speaker with the smartphone.

[Charging]

When the speaker is connected to PC, charging starts. (red LED)
When charging is completed, the LED turns on blue.

SM-100 Bluetooth®

FCC Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions :

- (1) This Device may not cause harmful interface, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for CLASS B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- 1.1. Reorient or relocate the receiving antenna.
- 1.2. Increase the separation between the equipment and receiver.
- 1.3. Connect the equipment into an outlet on a circuit different from that to which receiver is connected.
- 1.4. Consult the dealer or experienced radio/TV technician for help.

WARNING

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

"CAUTION : Exposure to Radio Frequency Radiation.

Antenna shall be mounted in such a manner to minimize the potential for human contact during normal operation. The antenna should not be contacted during operation to avoid the possibility of exceeding the FCC radio frequency exposure limit.

"ATTENTION: L'exposition aux rayonnements à fréquence radioélectrique.

Antenne doit être montée de telle manière à minimiser le risque de contact humain pendant l'utilisation normale. L'antenne ne doit pas être contacté pendant le fonctionnement pour éviter la possibilité de dépasser la limite de l'exposition aux fréquences radio de la FCC.

IC Information

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to The following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme avec Industrie Canada RSS standard exempts de licence(s), Son utilisation est soumise à Les deux conditions suivantes: (1) cet appareil ne peut pas provoquer d'interférences et (2) cet appareil doit accepter Toute interférence, y compris les interférences qui peuvent causer un mauvais fonctionnement du dispositif.
