Subject: AWHHJ 476352A – Class II Permissive Change is to add a Single carriers NR15MHz and NR slim carrier 49.5MHz configuration to the existing Grant - FCC Covering Letter

The Nokia Solutions and Networks, AirScale RRH micro 4T4R n41 160W AWHHJ Radio Unit is the subject of this application for a Product Certification under **FCC ID: VBNAWHHJ-01**.

This request is made to add a Single carriers NR15MHz and NR slim carrier 49.5MHz configuration which affect the RF characteristics.

Enclosed in this application package are the BABT736_v25 (application form), the required measurement data and other required exhibits specific to this request for a Class II Change authorization of the subject product.

The supporting exhibits presented in accordance with the Table of Contents attached next page.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kari Vanhatapio", is written over a light blue horizontal line.

Kari Vanhatapio – Team Manager, TA RF
