

Declaration for Difference

June 5, 2018

UL Japan, Inc.
4383-326 Asama-cho, Ise-shi,
Mie 516-0021 Japan

FCC ID : VBU-ALVBS2S
Applicant: MIWA LOCK CO., LTD.

To whom it may concern:

We hereby declare that the following models are essentially the same devices except the below description.
Therefore these models can be considered as the family model.

1. Difference of the authentication mode

·Model: ALVBS

The ALVBS supports Contactless Smart Card and BLE.

·Model: ALV2S

The ALV2S supports Contactless Smart Card only.

2. Difference of the circuit

ALVBS and ALV2S use the same printed circuit board.

There are differences in the components to be mounted.

BLE circuit block (BLE Module / LDO [2.6V BLE Module Power] / Flash memory / Crystal resonator / Other Discretes) is mounted in ALVBS. BLE Module is granted as "FCC ID: VPYLBZY".

Additionally, please refer to "Theory of Operation-Differences" for the details.

Thank you for your attention to this matter.

Sincerely,

Keiji Iwata
