- Packaging has to be kept since it contains important information.
- **WARNING!** Not suitable for children under 36 months. **CHOKING HAZARD**
- Where applicable, remove all packaging before giving this item to your child.
- Contents may vary in style, colour, shape and decoration from images shown on package or in advertising.

Before play, please remove the "Try me" module when you bring this purchase home.

PAIRING

Before each play session, the vehicle must be paired with the transmitter. To pair the vehicle with the transmitter, follow these steps:

1. Ensure that both the vehicle and transmitter are OFF.
2. Turn the transmitter ON. Stand behind the vehicle with the tail of the vehicle pointing towards you. The light on the vehicle would light up.
3. Point the antenna of the transmitter towards vehicle. Power ON the transmitter. The power indicator light would flash.
4. The power indicator light would turn off showing that pairing is successful.
5. You are now ready to play. Gently push the throttle stick/ trigger to move the vehicle.

TIP: If the power indicator light of the transmitter is flashing and you have no control of the vehicle that is powered ON, the transmitter and the vehicle are not paired. Ensure batteries are new or fully charged for normal performance. Repeat the above procedures if required. Electronic equipment or other radio control devices may affect the performance of your vehicle. Find an area free of such interferences to enjoy the play session.

CAUTION: CHANGES OR MODIFICATIONS DO NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. CHANGES COULD VOID THE USER'S WARRANTY TO OBTAIN THE EQUIPMENT.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/TV technician for help.
