

Test Setup	Radiated measurement for below 30 M (Front side)
	
Test Setup	Radiated measurement for below 30 M (Rear side)
	

Test Setup	Conducted measurement (Front side)
	 A photograph showing the front side of the test setup. A wooden table is in the foreground with a white Samsung laptop on it. In the background, a large, transparent, rectangular enclosure houses the test equipment. A blue light is visible inside the enclosure. To the right of the table, a piece of electronic equipment is visible on the floor.
Test Setup	Conducted measurement (Side)
	 A photograph showing the side view of the test setup. The wooden table is in the foreground with a white laptop on it. The transparent enclosure is visible in the background, showing the internal equipment. A piece of electronic equipment is also visible on a table to the right of the main setup.
