Get to know your Pump Air ANC 2

Item	Function
1	Charging Case LED Lights
2	Charging Port
3	Multifunctional (MFB)/Command Button
4	Earbud LED
5	Magnetic Charging Pin
6	Microphones

Charging your Pump Air ANC 2

1. Open the charging case

2. Place earbuds in case

3. Close the lid

Charging your Pump Air ANC 2 cont'd

Use the supplied charging cable. Please use only 5V/1A chargers.

The Pump Air ANC 2 takes 2 hours for a full charge.

The Pump Air ANC 2 charging case, takes 2 hours for a full charge. The charging case should charge the earbuds 4 times.

Charging your Pump Air ANC 2 cont'd

- The charging case has an LED bar on each side. When the charging case is being charged these LED bars will charge from the sides towards the middle. The length of the LED bars signifies the charge level of the charging case.

- ⌋ Lights 25% on each side
- ⌋ Lights 50% on each side
- ⌋ Lights 75% on each side
- ⌋ Lights 100% on each side

The LED lights on both sides of the charging case will turn off when fully charged. Please unplug the charging case.

- The charging case battery level indicator lights turn on when you remove or replace the earbuds in the charging case. This is to let you know the charge level of the charging case.
- The earbuds have a light that lights up when it's charging. The earbuds turn off when fully charged. The earbuds may charge at different rates for left and right sides.

Let's Get Started | Pairing

In order to get started using the Pump Air ANC 2, we need to pair it to your phone.

1. Remove both earbuds from the charging case, and put them in your ears.
2. After a few seconds, they will play a sound in each ear, to let you know that both are connected.
3. When the earbuds turn on for the first time, it will go into pairing mode.
4. Now search your phone for *'BlueAnt Pump Air ANC 2'* and pair.
5. The earbuds will auto-reconnect to your phone whenever you take them out of the charging case, and power off when you put them back in.

If you need to pair with another phone, please turn off Bluetooth on the connected phone.

The earbuds will say, *'Disconnected'* followed by *'Pair Me'*.

Now select the *'BlueAnt Pump Air ANC 2'* on the new phone to connect.

Let's Get Started | Fit

To ensure the best sound, you need the best fit. Having the best fit creates a seal and enhances the bass performance.

The diagram on the right, is how the earbuds should sit in your ear. There are 3 sizes of ComfortSealTips - *Small, Medium and Large*.

To get the most out of the earbuds, it's best to try out each of the sizes to get the best fit.

SAFETY INFORMATION AND WARRANTY TERMS

Important Safety Information

**PLEASE READ THIS ENTIRE DOCUMENT
CAREFULLY, BECAUSE IT CONTAINS
IMPORTANT INFORMATION ABOUT THE
SAFE USE OF BLUEANT DEVICES**

**WARNING - PROTECT
YOUR HEARING**

**BLUEANT DEVICES CAN
REACH VOLUMES ABOVE
100 DECIBELS.**

ONLY CHARGE WHEN DEVICE IS CLEAN AND DRY

**PROLONGED USE AT HIGH VOLUMES MAY AFFECT YOUR HEARING CAPACITY AND MAY RESULT IN NOISE INDUCED HEARING LOSS (NIHL).
TURN OFF THE POWER TO YOUR DEVICE WHEN NOT IN USE.**

Please ensure that the device and any associated components such as ear gels or chargers, are stored safely and that any packaging or unwanted contents are disposed of thoughtfully. Do not place the product on the floor or leave it in a place, where young children could access it, or someone could trip over it

Using Ear Gels

Your BlueAnt earbuds will come with eargels or foam tips that are designed to provide a secure fit in your ear, while providing high quality audio

- Ear gels and tips are designed to sit comfortably in your ear and should not be forced into your ear at any time. If you have

trouble fitting the ear gel or foam, please refer to the owner's manual for correct insertion and usage information.

Always make sure that the ear gel or foam is fitted securely to your device, before placing it in your ear.

WARNING

**NOTE THAT NON COMPLIANCE,
MISUSE OR FORCING THE EAR
GEL OR FOAM MAY CAUSE
DAMAGE TO YOUR EAR CANAL
EARDRUM, OR MAY OTHERWISE
CAUSE BODILY HARM**

Care and Handling

Your BlueAnt Bluetooth device is a precision engineered instrument. To ensure its ongoing performance, you should look after it as you would any quality consumer electronic product, and use it in accordance with the instructions.

BlueAnt recommends that you take the following precautions.

- Avoid leaving your device in direct sunlight, such as on the dashboard or console of a car or truck. Do not leave your device unattended in your vehicle.
- Do not leave your device, or use your device, in any area where the temperature may exceed 60 degrees Centigrade (140 degrees Fahrenheit),

such as inside a closed car on a hot day. Remember that on a hot day, the temperature inside a closed car may be significantly higher than the outside air temperature.

- Do not leave your device, or use your device, in any area exposed to humidity, dust, soot, other foreign objects, smoke, or steam as this may cause your device to malfunction.
- Do not use any household or industrial grade detergents or cleaners to clean your device. If your device becomes dirty or smeared, in most instances, a wipe with a dry or slightly damp cloth should be sufficient to clean it.
- Do not leave your Bluetooth device, plugged into a wall or car charger for long periods after it is fully charged. BlueAnt does not recommend long periods of continued charging.
- Before charging your BlueAnt device, make sure that the AC outlet, adaptor and cable are not damaged. If you notice any abnormalities, seek advice from a

qualified professional.

- If travelling internationally, ensure that your BlueAnt wall or car power adapter is approved for use in the country where you plan to use it and that the adapter voltage is suited to the local power supply.
- Should a fault develop with your BlueAnt product, contact BlueAnt for advice on how to proceed. Do not attempt to repair or alter any BlueAnt product yourself.

Approved Accessories

The use of accessories not approved by BlueAnt, including but not limited to batteries, antennas, wall adapters, car chargers, ear gels, foam tips and convertible covers, may cause your BlueAnt device to malfunction, or in the case of non-approved electrical accessories, may cause the device to exceed RF energy exposure guidelines. Use only 5V/1A chargers.

Use of non approved accessories will void your device's warranty. For a list of approved BlueAnt accessories, visit our website www.blueantwireless.com

Electromagnetic Interference

Nearly every electronic device is susceptible to electromagnetic interference (EMI) if inadequately shielded, designed, or otherwise for electromagnetic compatibility.

Similar to a mobile phone, your BlueAnt device is a low power transmitter/ receiver and is covered by regulations in any facility where posted notices instruct you to do so. These facilities may include hospitals or health care facilities that may be using equipment that is sensitive to external RF energy.

- When instructed to do so, turn off your BlueAnt device when you board an aircraft. Any use of a mobile device must be in accordance with applicable laws, regulations and airline crew instructions.

- Some Bluetooth devices may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer or physician to discuss alternatives.
- If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your doctor or physician may be able to assist you in obtaining this information.
- If you are in doubt whether your BlueAnt device or mobile phone can be safely turned on or used, please consult an authorised person in the location you want to use your BlueAnt device. If no authorised person is available, or you remain uncertain, BlueAnt recommends that you turn off your Bluetooth device and any mobile phones unless they are required in an emergency situation.

BlueAnt Limited Global Warranty

This product is covered by BlueAnt's limited global warranty for one (1) year from the date of purchase, or if later, the date of delivery.

Please refer to the **warranty.blueantwireless.com** for full terms and conditions.

Caring for the Environment by Recycling

Do not dispose of Bluetooth accessories, such as chargers or headsets, with your household waste. In some countries or regions, collection systems are set up to handle electrical and electronic waste items, and may prohibit or restrict how such items are disposed of. Check the laws and regulations for your areas to determine how to properly dispose of such items. Contact your regional authorities for more details.

FCC INFORMATION (for US customers)

NOTE:

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a

residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications

- However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio / TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING:

This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information go to: www.P65Warnings.ca.gov

- Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
