7	Speaker
8	Magnetic charging pins

Charging your Open X

1. Open the charging case and remove the open buds. Be sure to take off the paper tags covering the charging pins.

2. Place open buds in the case to charge.

3. Close the lid

Charging your Open X cont'd...

1. Use the supplied charging cable. Please use only 5V/1A chargers.

2. The Open X takes 2hrs for a full charge. You can also wirelessly charge the charging case by placing it on a compatible Qi charging pad. 5-10W charging is supported.

3. The Open X charging case, takes 2hrs for a full charge. The charging case should charge the open buds 8 times.

Charging your Open X cont'd...

- The charging case has 4 lights. These signify the charge level of the case.
1 light 25%, **2 lights** 50%, **3 lights** 75%, **4 lights** 100%
Once fully charged, please unplug the charging case.
- The charging case battery level indicator light turns on, when you replace the earbuds in the charging case, to let you know the charge level of the charging case.
- The open buds have a light that lights up when charging. The open buds turn off when fully charged. The open buds may charge at different rates for left and right sides.

To check the charging case battery level at any time, simply click the button in the charging case and check the lights on the case.

Let's get started | Pairing

In order to get started using the Open X, we need to pair it to your phone.

1. Remove both open buds from the charging case, and put them in your ears.
2. After a few seconds, they will play a sound in each ear, to let you know that both are connected.
3. When the open buds turn on for the first time, it will go into pairing mode.
4. Now search your phone for '*BlueAnt Open X*' and pair.
5. The open buds will auto-reconnect to your phone whenever you take it out of the charging case, and power off when you put it back in.

If you need to pair with another phone, please turn off Bluetooth on the connected phone. The open buds will say, '*Disconnected*' followed by '*Pair me.*' Now select the '*BlueAnt Open X*' on the new phone to connect.

Let's get started | Fit

The diagram below shows how the open buds will sit on your ear.

Made from premium soft silicone, it provides a comfortable and secure fit for sports and everyday use. It's open-ear design eliminates the need to insert the earbud into the ear canal, ensuring a painless and pressure-free listening experience.

Button Functions

Music

▶▶ Click either **MFB** to Play/Pause

▶▶ Double click the right **MFB** to skip forward

◀◀ Double click the left **MFB** to skip backward

Siri/Google

Click either **MFB** three times to Activate/Cancel Siri/Google

Button Functions cont'd...

Talk

Click either **MFB** to answer a call

Double click either **MFB** to end a call

Press and hold either **MFB** for 3s to reject a call

Volume

When music is playing or on a call

Press and hold the right **MFB** to increase volume

Press and hold the left **MFB** to decrease volume

Power

1. When you remove the open buds from the charging case, they will automatically power on and try to reconnect to the last phone they were connected to.
2. When you place the open buds into the charging case, they will automatically power off.
3. To power on without the charging case, *press* and *hold* the **MFB** for 2s.

To power off without the charging case, *press* and *hold* each **MFB** open bud for 6s.

4. To pair without the charging case from off, *press* and *hold* the **MFB** on one open bud for 5s, and then pair with your phone. Then *press* and *hold* **MFB** on the other open bud for 2s to power it on.

- The open buds announces when the battery is low, when there is about 30 mins of play time left.
- The open buds features an iPhone battery meter.
- **Mono Operation:** It is possible to use the open buds as a mono headset. Simply remove one of the open buds from the charging case.

Buds lost connection?

If your openbuds become disconnected from each other and show up as two separate devices on your phone, or if you are replacing a lost openbud, follow these steps to re-sync them:

1. Place open buds in the case.
Press & hold the button in the case for 10s

2. Open buds will flash white, 3 times.

3. Remove open buds from case.

Buds lost connection? cont'd...

4. Place open buds within 10cm from each other

5. Wait 10s until one open bud flashes white, then pair to phone.

Legal

PLEASE PROTECT YOUR EARS. BlueAnt devices can reach volumes above 100 decibels. Prolonged use at high volumes may affect your hearing capacity and may result in noise induced hearing loss (NIHL). SAFETY INFORMATION AND WARRANTY TERMS

Important Safety Information

PLEASE READ THIS ENTIRE DOCUMENT CAREFULLY, BECAUSE IT CONTAINS IMPORTANT INFORMATION ABOUT THE SAFE USE OF BLUEANT DEVICES

**WARNING - PROTECT
YOUR HEARING**

**BLUEANT DEVICES CAN
REACH VOLUMES ABOVE
100 DECIBELS.**

ONLY CHARGE WHEN DEVICE IS CLEAN AND DRY

**PROLONGED USE AT HIGH
VOLUMES MAY AFFECT YOUR
HEARING CAPACITY AND MAY
RESULT IN NOISE INDUCED
HEARING LOSS (NIHL).
TURN OFF THE POWER TO
YOUR DEVICE WHEN NOT
IN USE.**

Please ensure that the device and any associated components such as ear gels or chargers, are stored safely and that any packaging or unwanted contents are disposed of thoughtfully. Do not place the product on the floor or leave it in a place, where young children could access it, or someone could trip over it

Using Ear Gels

Your BlueAnt earbuds will come with eargels or foam tips that are designed to provide a secure fit in your ear, while providing high quality audio

- Ear gels and tips are designed to sit comfortably in your ear and should not be forced into your ear at any time. If you have trouble fitting the ear gel or foam, please refer to the owner's manual for correct insertion and usage information.

Always make sure that the ear gel or foam is fitted securely to your device, before placing it in your ear.

WARNING

NOTE THAT NON COMPLIANCE, MISUSE OR FORCING THE EAR GEL OR FOAM MAY CAUSE DAMAGE TO YOUR EAR CANAL EARDRUM, OR MAY OTHERWISE CAUSE BODILY HARM

Care and Handling

Your BlueAnt Bluetooth device is a precision engineered instrument. To ensure its ongoing performance, you should look after it as you would any quality consumer electronic product, and use it in accordance with the instructions.

BlueAnt recommends that you take the following precautions.

- Avoid leaving your device in direct sunlight, such as on the dashboard or console of a car or truck. Do not leave your device unattended in your vehicle.
- Do not leave your device, or use your device, in any area where the temperature may exceed 60 degrees Centigrade (140 degrees Fahrenheit), such as inside a closed car on a hot day. Remember that on a hot day, the temperature inside a closed car may be significantly higher than the outside air temperature.
- Do not leave your device, or use your device, in any area exposed to humidity, dust, soot, other foreign objects, smoke, or steam as this may cause your device to malfunction.
- Do not use any household or industrial grade detergents or cleaners to clean your device. If your device becomes dirty or smeared, in most instances, a wipe with a dry or slightly damp cloth should be sufficient to clean it.

- Do not leave your Bluetooth device, plugged into a wall or car charger for long periods after it is fully charged. BlueAnt does not recommend long periods of continued charging.
- Before charging your BlueAnt device, make sure that the AC outlet, adaptor and cable are not damaged. If you notice any abnormalities, seek advice from a qualified professional.
- If travelling internationally, ensure that your BlueAnt wall or car power adapter is approved for use in the country where you plan to use it and that the adapter voltage is suited to the local power supply.
- Should a fault develop with your BlueAnt product, contact BlueAnt for advice on how to proceed. Do not attempt to repair or alter any BlueAnt product yourself.

Approved Accessories

The use of accessories not approved by BlueAnt, including but not limited to batteries, antennas, wall adapters, car chargers, ear gels, foam tips and convertible covers, may cause your BlueAnt device to malfunction, or in the case of non-approved electrical accessories, may cause the device to exceed RF energy exposure guidelines. Use only 5V/1A chargers.

Use of non approved accessories will void your device's warranty. For a list of approved BlueAnt accessories, visit our website: www.blueantwireless.com

Electromagnetic Interference

Nearly every electronic device is susceptible to electro-magnetic interference (EMI) if inadequately shielded, designed, or otherwise for electromagnetic compatibility.

Similar to a mobile phone, your BlueAnt device is a low power transmitter/ receiver and is covered by regulations in any facility where posted notices instruct you to do so. These facilities may include hospitals or health

care facilities that may be using equipment that is sensitive to external RF energy.

- When instructed to do so, turn off your BlueAnt device when you board an aircraft. Any use of a mobile device must be in accordance with applicable laws, regulations and airline crew instructions.
- Some Bluetooth devices may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer or physician to discuss alternatives.

- If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your doctor or physician may be able to assist you in obtaining this information.
- If you are in doubt whether your BlueAnt device or mobile phone can be safely turned on or used, please consult an authorised person in the location you want to use your BlueAnt device. If no authorised person is available, or you remain uncertain, BlueAnt recommends that you turn off your Bluetooth device and any mobile phones unless they are required in an emergency situation.

BlueAnt Limited Global Warranty

This product is covered by BlueAnt's limited global warranty for one (1) year from the date of purchase, or if later, the date of delivery.

Please refer to the warranty.blueantwireless.com for full terms and conditions.

Caring for the environment by recycling

Do not dispose of Bluetooth accessories, such as chargers or headsets, with your household waste. In some countries or regions, collection systems are set up to handle electrical and electronic waste items, and may prohibit or restrict how such items are disposed of. Check the laws and regulations for your areas to determine how to properly dispose of such items. Contact your regional authorities for more details.

FCC Information

FCC INFORMATION (for US customers)

NOTE:

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
- However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio / TV technician for help. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) this device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING:

This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information go to: www.P65Warnings.ca.gov

- Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.
