To Whom It May Concern

ID Label/ Label Location – Unitron N Moxi Kiss and Vista N Rm 312 BTE Products

Pursuant to paragraph §2.925 of 47 C.F.R. the hearing instrument Unitron N Moxi Kiss and Vista N Rm 312 BTE Products, which is subject of this filing, shall bear a permanently affixed, readily visible label listing the information as specified in §2.926 and §15.19(a) of the 47 C.F.R. Due to the specific use of the hearing instrument (as shown in figure 1) its external surface is in contact with the user's skin behind the ear.

Figure 1: Position of the Hearing Instrument on the User

Therefore, it is not appropriate to permanently affix a label on the outer surface of the device to prevent skin irritations. The only alternative place for the FCC ID and serial number of the device would be in the battery compartment.

Photo 1:

In this case the size of the FCC ID will be smaller than 2 points, which does not satisfy the requirements for "readily visible" label as defined in §2.925 (d)(2) and §2.925(g).

Due to the small size of the devices and pursuant to paragraph § 15.19(a)(5) of 47 C.F.R., the FCC ID and the statement specified in §15.19(a)(3) are placed in the user manual as shown below.

Compliance information

Declaration of conformity

Unitron hereby declares that this Unitron product meets the requirements of the Medical Devices Directive 93/42/EEC as well as the Radio and Telecommunications Terminal Equipment Directive 1999/5/EC. The full text of the Declaration of Conformity can be obtained from the manufacturer.

The hearing aid described in this user guide is certified under:

Standard hearing system

USA FCC ID: VMX-LWNBo

Canada IC: 2756A-UWNBo

Notice 1

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference, and
- 2) this device must accept any interference received, including interference that may cause undesired operation.

Notice 2

Changes or modifications made to this device not expressly approved by Unitron may void the FCC authorization to operate this device.

Notice 3

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules and ICES-003 of Industry Canada. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the device into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help
