EXTERNAL MAIL

Inquiry on 08/28/2018 :
Inquiry:

We are seeking exemption from the requirement defined in 47 CFR 2.925(f) that specifies that if a device is so small that it is impractical to label it with the FCC identifier in a font that is four-point or larger...then the FCC identifier shall be placed in the user manual and must also either be placed on the device packaging or on a removable label attached to the device."

We are seeking exemption from the requirement that the FCC-ID must also be placed on the device packaging or on a removable label attached to the device.

We will place the FCC-ID in the user manual.

Please reference the attached letter.

---Reply from Customer on 08/31/2018---

Good morning,

I would like to follow up on our request reference # 409012.

Has a decision been about regarding the request?

If any additional information is required, please let me know.

Sincerely,

Benita du Randt

FCC response on 09/04/2018

If the device is unquestionably too small for the FCC ID to be readable (smaller than 4-6 points), the FCC ID may be placed in the user manual.
