Ref: FCC Class II Permissive Change for FCC ID: VNQ-0200201
(Original Grant Date: 10/15/2017)
Applicant: INRO Elektrotechnik GmbH

Dear Examiner,

This is to request a Class II permissive change for FCC ID: VNQ-0200201.

The major change filed under this application is:

By reason of a discontinued microcontroller, a modification of the electrical circuit and layout was necessary.

Changes:

- Replacement of microcontroller AT91SAM7A3-AU (Atmel) by STM32F303VC (STMicroelectronics), motivated by Atmel End-of-Life Notification RE123807.
- Change name of the component from "JXP-HPS" to "HPS3".

The RF part of the component is unchanged.
