Subject: Certification of the Cobalt XS Wi-Fi.

Certifications requested

	FCC certification	ISED certification
Applicant	DICKSON/UNIGAGE	DICKSON
Product	Cobalt XS Wi-Fi FCC ID: VOHCXSW001	Cobalt XS Wi-Fi IC: 3693A-CXSW001

Madam, Sir,

We would like to submit the above product for FCC and ISED certification.

Please review all required documents enclosed.

The Cobalt XS Wi-Fi is a powerful and flexible wireless data logger. Ideal for life science, agri-food, and logistics sectors, the Cobalt XS Wi-Fi gives a cost-effective, practical, and reliable way to keep an eye on the environmental parameters of sensitive assets, storage facilities, products, equipment, and more.

The Cobalt XS Wi-Fi data logger implements Wi-Fi wireless technology and Bluetooth Low Energy (BLE). This data logger also supports Dickson's Smart-Sensor technology, which makes it easier to keep up with calibration tasks by storing all calibration information directly in the sensor. This enables both high accuracy and on-the-fly sensor swapping when needed.

If you have any queries, please do not hesitate to contact us.

Yours faithfully,

Jean-Xavier Rigal
