

Request for Class II Permissive Change

August 8, 2019

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : VPYLB1FJ
Applicant : Murata Manufacturing Co., Ltd.

To Whom It May Concern:

This is a Class II permissive change request for the above mentioned FCC ID, originally granted on 10/30/2015 and all its permissive changes.

This module is used in the portable host device (Digital Camera N1834) therefore we performed SAR testing with the host device.

We apply the Class II permissive change application because the reported SAR value is higher than applied host device with the highest reported SAR (Digital Camera N1511).

Bluetooth part is exempt from RF exposure SAR evaluation as its output power meets the exclusion limits stated in KDB 447498D01(v06).

The results are as below.

	The highest reported SAR(1g)	
Model	WLAN	Bluetooth
N1511	0.301W/kg	exempt
N1834	0.410W/kg	exempt

We submit the following documents related to this change.

There is no change before and after change except for these documents.

☐	Test Report
☒	RF Exposure
☐	External Photo
☐	Internal Photo
☐	User Manual
☐	Label Drawing/ Location
☐	Block Diagram
☒	Theory of Operation
☐	Schematic Diagram
☐	Parts List

This time, we performed tests and confirmed that this product still meets the minimum requirements of the applicable rules of FCC.

Thank you for your attention to this matter.

Sincerely,

Takahiro Watanabe
Murata Manufacturing Co., Ltd.
