Subject: Use of SX-SDMAC-2832S+ FCC/IC (ISED) test reports.

To whom it may concern,

SILEX TECHNOLOGY INC. is supplying the SX-SDMAC-2832S+ with the below FCC ID and IC certification no. to Juniper Systems Inc. with one change to increase the Bluetooth BDR/EDR power settings.

FCC ID: N6C-PMACS

IC Certification no.: 4908A-PMACS

The WiFi and BLE configuration is not modified and the original test results for these technologies in the test reports below continue to be representative of and applicable to the equipment.

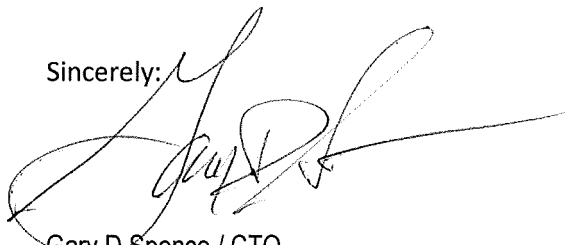

FCC:

ER/2017/70040, ER/2017/70041, ER/2017/70042

IC:

ER/2017/70047-02, ER/2017-70048-02, ER/2017/70049-02,

Sincerely:

A handwritten signature in black ink, appearing to read 'Gary D. Spence', with a long horizontal flourish extending to the right.
