Re: FCC ID: VSF26593

To Whom It May Concern:

The following application is submitted on behalf of our client, Juniper Systems, Inc., for evaluation of their model MS2 Micro for class II permissive change under FCC Part 15.247.

The Juniper Systems, Inc., Model MS2 Micro, is an RFID module. The MS2 Micro will be integrated into the MS2GR and MS2GCR host.

The MS2 Micro will be co-located with a Bluetooth/802.11 a/b/g/n (FCC ID: VSFMS2), cellular radio (FCC ID: VSF25271), GNSS (optional), camera (optional), and barcode scanner (optional).

The purpose of this class II permissive change is to address co-location and add new antenna in hand held host and SAR review.

The MS2 Micro was evaluated against simultaneous transmitter co-location and SAR requirements. The MS2 Micro was found to be in compliance to the requirements.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Sam Wismer', is written in a cursive style.
