Requesting permissive change

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for
FCC ID: VUIAX211D2, Original grant date: 2026/02/11

The major change filed under this application is :

1. The subject approved module is integrated in a new host (Product: Chromebook, Model: PX112CT-L, PX112C-L).
2. SAR Test report is provided to demonstrate RF exposure Compliance.
3. The hardware design of this transmitter that may affect compliance, remains unchanged in this permissive change application.
4. The RF parameters of this transmitter that may affect compliance, remains unchanged in this permissive change application.
5. The security mechanism according to section II of KDB 594280 D02 is remained unchanged as it reported to the FCC at the initial certification.
6. WLAN transmitter only supports with passive scanning in UNII-2A & UNII-2C bands without radar detection, hence radar detection is exempted from evaluation in this permissive change.
7. The original certification supported Low Power Indoor Client (6XD) and Dual Client (6CD) modes, and the Dual Client (6CD) mode has been disabled via software in this permissive change.
8. Add a new antenna of the same type; after comparing its gain value with the originally certified one, confirm that it is lower, yet still higher than the antenna gain used in the CBP test.

Sincerely,

Name: Nancy Yu
