=====

The Alkaline batteries accompanying the device cannot be recharged (where Alkaline is the battery type e.g. Lithium, Alkaline, etc) Insert the batteries in the proper direction as indicated by positive (+) and negative (-) markings in battery compartment.

Always replace with non-rechargeable AA 1.5V Alkaline batteries specified for this product.

Do not mix used and new batteries or batteries of different types (for example, Lithium and alkaline batteries).

Do not disassemble, deform, shred the battery.

Do not insert foreign objects into the battery compartment

Do not expose to any liquids, including water.

Do not expose the battery to fire, high temperature, explosion or other hazards.

If dropped and you suspect damage, avoid ingestion or direct contact of fluids and any other materials from the battery with skin or clothes.

If a battery leaks, remove all batteries and recycle or dispose of them in accordance with battery manufacturer's recommendations.

If fluid or other material from the battery comes into contact with skin or clothes, flush skin or clothes with water immediately.

An open battery should never be exposed to water, as fire or explosion may result from exposure to water.

Always remove old, weak, or worn-out batteries and recycle or dispose them in accordance with battery manufacturer's recommendations..

Do not mount this equipment higher than 6.5 feet.

=====

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions:

- 1) this device may not cause harmful interference and
- 2) this device must accept any interference received, including interference that may cause undesired operation.

For FCC radiation safety, keep a minimum 20 cm distance between the equipment and the user's body. Unauthorized modifications will void the warranty.
