Limited Modular Approval Letter

2016-1-21

Dear Application Examiner:

Atmel Norway AS is submitting this application for certification of their ATREB215-XPRO-A under FCC ID: VW4A092353. It is seeking limited modular approval. The radio meets most of the requirements for modular approval as detailed in FCC 15.212. Compliance to each of the requirements is described below:

1. "The modular transmitter must have its own RF shielding."

The radio part of modular has no RF shielding

2. "The modular transmitter must have buffered modulation/data inputs."

Buffered data inputs stage has been integrated in chip (Model: AT86RF215)

3. "The modular transmitter must have its own power supply regulation."

DC3.3V supplied by system

4. "The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c)."

The module has one 2.4GHz and 900MHz rubber stubby antenna with RP-SMA female straight.

5. "The modular transmitter must be tested in a stand-alone configuration."

The EUT was tested in a stand-alone configuration.

6. "The modular transmitter must be labeled with its own FCC ID number."

The module will be labeled with its own FCC ID number. Please see FCC ID label & location exhibit

7. "The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements."

The necessary explanation to be complied with this requirement is contained in the use manual, and please refers to the Use manual.

8. "The modular transmitter must comply with any applicable RF exposure requirements."

The EUT will comply with any applicable RF exposure requirements in its final configuration.
