

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Model: DD7600

EUT Housing and Board View 1	
EUT Housing and Board View 2	

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled '0278-00000185' and '100-1000000-01-1', mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented vertically, with its top edge aligned with the 0 mm mark on the ruler.
Solder Board-Component View 2	 A photograph of the same green PCB component from a different angle, showing the underside. The component is labeled '0278-00000185' and '100-1000000-01-1'. It is positioned next to a black ruler with white markings, showing measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented vertically, with its top edge aligned with the 0 mm mark on the ruler.

Board View 1**

**EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is rectangular and populated with various electronic components, including a central integrated circuit (IC), several resistors, capacitors, and a small blue component. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows the component is approximately 100 mm long and 30 mm wide.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the reverse side of the board, which features several circular solder pads and a central IC. The component is placed on the same blue textured surface next to the same black ruler. The ruler indicates the component's dimensions are approximately 100 mm by 30 mm.

Model: DD7660AH

EUT Housing and Board View 1	 A photograph showing the back of a white electronic device (Model DD7660AH) and its internal components. The device is placed on a blue surface next to a black ruler. The back of the device is visible, showing a small circular opening and a label with the model number and CE mark. The internal components, including the battery and circuitry, are visible through the open back cover.
EUT Housing and Board View 2	 A photograph showing the front of the white electronic device (Model DD7660AH) and its internal components. The device is placed on a blue surface next to a black ruler. The front of the device is visible, showing a small circular opening. The internal components, including the battery and circuitry, are visible through the open front cover.

Model: DD7660H

EUT Housing and Board View 1	 A photograph showing the back of a white plastic EUT housing and its internal components. The housing is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The housing has a small rectangular cutout in the center. A label on the right side of the housing reads: "Model DD7660H", "No. 10000000000000000000", "Dual Channel Encoder", "AAA 1.5V", "433.92MHz". The internal components, including a green PCB and various electronic components, are visible through the transparent plastic.
EUT Housing and Board View 2	 A photograph showing the front of the white plastic EUT housing and its internal components. The housing is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The housing has a small rectangular cutout in the center. The internal components, including a green PCB and various electronic components, are visible through the transparent plastic.

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'WALTEK BOARD' and 'WALTEK WTN23X12271228W', mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is rectangular with various electronic components and solder joints visible.
Solder Board-Component View 2	 A photograph of the same green PCB component from a different angle, showing the underside. It is positioned next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is rectangular with various electronic components and solder joints visible.
