

Wi-Fi Tag Charger

DESCRIPTION:

The **WTC** is designed to provide contactless charging for ST-4-WIFI Staff Tags. While the ST-4-WIFI tags are capable of operating up to a month on each charge, the WTC can recharge each tag within 6 hours to ensure minimal interruption to normal operations. The WTC maintains the same charge rate whether you are charging one tag or 10 simultaneously.

When the ST-4-WIFI tag is in the WTC, one LED is blue to show that it is placed correctly in the WTC while the other LED will flash yellow to show that it is charging and becomes solid yellow when charging is complete. It is recommended that extra tags be available for use while depleted tags are being recharged.

SPECIFICATIONS:

Product	WTC
Part Number	61-14024
Capacity	10 x ST-4-WIFI Staff Tags
Input Power	5 VDC, 5.0 A (power adapter included)
Dimensions	190.5 mm x 295.91 mm x 25 mm (7.50" x 11.65" x 0.98")
Weight	1.0 kg (2.3 lb)
Operating Temperature	-10°C to 50°C (-14° F to 122°F)
Humidity	5-95%
Regulatory	FCC, IC
Warranty	12 months

FEATURES:

- Contactless charging of up to 10 **ST-4-WIFI** tags simultaneously
- Same charge rate no matter how many tags are being charged.
- Provide full charge within 6 hours depending on starting battery level.

This device complies with part 15 of the FCC Rules and with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Cet appareil est conforme à la spécification RSS-210 d'Industry Canada. Son fonctionnement est soumis aux deux conditions suivantes:

- (1) cet appareil ne peut engendrer aucune interférence et
- (2) il doit accepter toute interférence qu'il reçoit, y compris celles qui peuvent altérer son fonctionnement

NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.
