

# nFore Technology Co., Ltd.

Date: 7 April 2023

TO: Federal Communications Commission,  
Authorization & Evaluation Division,  
7435 Oakland Mills Road,  
Columbia, MD 21046

Request for Modular Approval FCC ID: **W3GNF3219PQ**

| Item | Requirements                                                                                                                                                                                                                                                                                     | EUT                                                                                                                                                                | Confirm<br>(Yes/No) |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| 1    | Have its own RF shielding                                                                                                                                                                                                                                                                        | The EUT has been shielded, please refer the EUT photos.                                                                                                            | Yes                 |
| 2    | Have buffered modulation/data inputs (if such inputs are provided)                                                                                                                                                                                                                               | The modular data inputs are buffered through log or microcontroller connections. All modulation and data inputs are buffered by circuitry on the transmitter chip. | Yes                 |
| 3    | Have its own power supply regulation                                                                                                                                                                                                                                                             | Power supply regulation is provided by circuitry on the CPU chip.                                                                                                  | Yes                 |
| 4    | Meet the antenna requirements of section 15.203                                                                                                                                                                                                                                                  | The EUT meet the FCC antenna requirements, the modular with a special joint antenna connector. And the antenna is described in module user manual.                 | Yes                 |
| 5    | Demonstrate compliance in a stand-alone configuration                                                                                                                                                                                                                                            | The EUT is can transmitting Stand-alone.                                                                                                                           | Yes                 |
| 6    | The licensed module must have a FCC ID label on the module itself. That FCC ID label must be visible through a window on the final device or it must be visible when an access panel, door or cover is easily removed. If not, a second label must be placed on the outside of the final device. | The module is labeled with its permanently affixed FCC ID label. The label position is clearly indicated. Please refer to label & label location information.      | Yes                 |
| 7    | The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements.                                                                                                                            | The EUT is full compliant with FCC rules, please refer the details in user manual.                                                                                 | Yes                 |
| 8    | The module must comply with RF exposure requirements. See FCC Rules. Spread Spectrum transmitters must comply with RF exposure limits in 15.247.                                                                                                                                                 | This module is complies with FCC CFR 47 part 2.1091 and FCC KDB 447498 D01 General RF Exposure Guidance limit , Please refer RF exposure report.                   | Yes                 |

Thank you for your attention to this matter.

Yours Sincerely,

ChungYi Hsieh
