Dear Sir/Madam,

The Mobile Radio with FCC ID: W5J-D240 was designed to operate in the frequency bands 400-480MHz.

To aid equipment authorization in other countries which accept the United States FCC Grant for certification, REE Engineering, Inc. is requesting that the FCC lists the frequencies 400-480MHz, under FCC Rules Parts 90 on the FCC Grant.

REE Engineering, Inc. attests that the repeater will not be marketed to USA users with the frequency band which is not allowed by the rule part 90.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.
