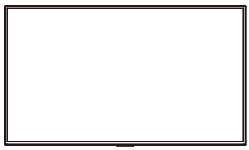
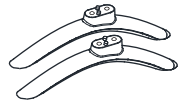
Hi! Let's get started.

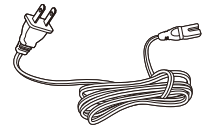
What's in the box



TCL Roku TV



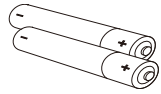
TV stands



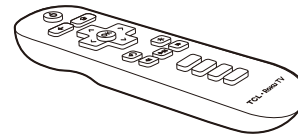
Power cable

Cable clip

4 x Phillips screws (M5X35mm)

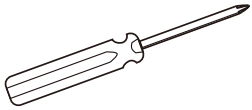


2 x AAA batteries for remote



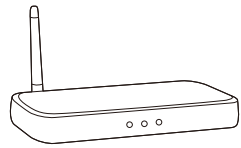
TV remote

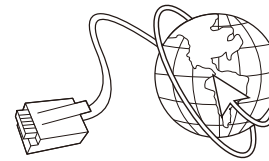
What you need



Phillips head screwdriver

Make the most of your Smart TV





Router + Internet Connection (needed for streaming)

For additional support, please see User Manual at: www.TCLUSA.com/support

Key things to know: A paid subscription or other payments may be required for some streaming channels. Channel availability subject to change and varies by country.

Step 1 Set up your TV

Ready for the step-by-step? You're only minutes away from TV bliss!

Remove your TV from the box

Be careful, it's heavy!

To mount on a wall

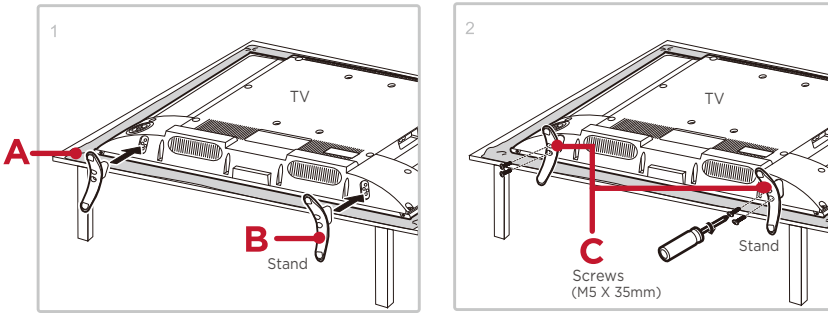
Follow the instructions that come with the wall mount.

To **use the stand**

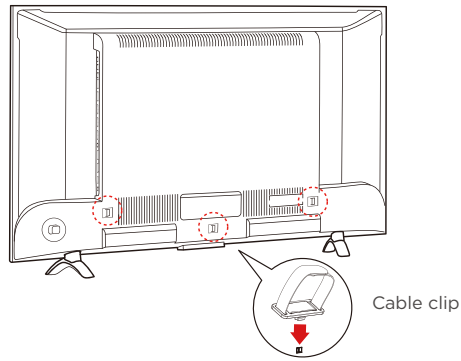
A To prevent damage to the screen, carefully place your TV on a soft, cushioned surface.

B Put the column of the stands into the TV, align the stands with the screw holes located on the TV.

C Secure the stands to the TV with four (4) screws.

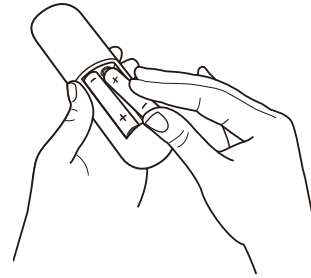


Cable Management



There are three slots on the back of the machine. Insert the cable clip into one of the slot to help you manage your cables!

Step 2 Power up



In this step, we'll make sure all systems are GO!

Power your TV remote by inserting the included batteries.

Connect your power cable to the TV, then plug it in to the wall outlet.

Connect other devices by refrencing port label and descriptions on the bottom of page 5.

Power Tip! Always replace dead batteries with two brand-new batteries from the same manufacturer. Never use damaged batteries.

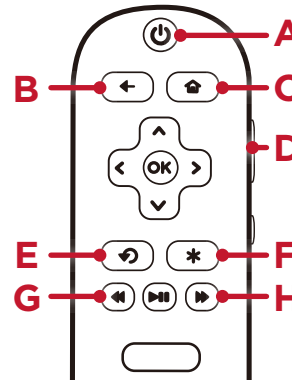
If your remote gets warm/hot during use, discontinue use and contact customer support immediately at www.TCLUSA.com/support.

Step 3 Grab your remote

The TV remote should feel right at home in your hand. We designed it to be incredibly intuitive for watching TV and navigating on-screen menus.

Here's some buttons you should know about.

- **A** **POWER** Turn TV on and off
- **B** **BACK** Return to previous screen
- **C** **HOME** Return to Roku Home screen
- **D** **VOLUME** Raise and lower volume
- **E** **INSTANT REPLAY** Replay last 7 seconds of streaming video
- **F** **OPTIONS** View more options
- **G** **RWD SCAN** Rewind streaming video, scroll left one page at a time
- **H** **FWD SCAN** Fast forward streaming video, scroll right one page at a time



Tip! The ✱ button gives you easy access to picture settings, display options, and more. Try it on every screen!

Step 4 Complete guided setup

Establish your network connection

It’s the final stretch—hurray!

Let’s Connect

Your TV will automatically detect wireless networks in your area. Have your network name and password handy and follow the easy on-screen instructions. For the highest performance connection, you can also connect using an Ethernet cable.

Once you’re connected, your TV will automatically update with the latest software—plus you can start streaming the entertainment you know and love. Unlike other TVs, your new TCL • Roku TV automatically receives regular software updates in the background when it’s connected to the internet. This allows it to give you a better and better experience.

If you aren’t ready to connect your TV to a wireless network, you can still use it as a regular TV.

And setup is done...**congratulations!**

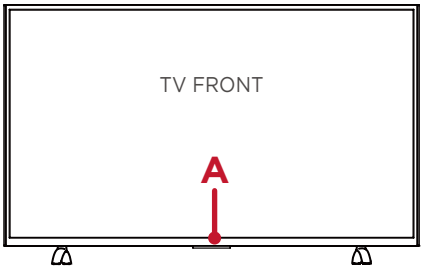
Continue using the remote to personalize your Home screen and channel line-up, stream movies, and so much more.

If you have an antenna or cable connected, just click the tuner tile to watch broadcast TV channels. The fun has just begun!

Your Roku account: During Guided Setup, you’ll be prompted to create your Roku account online at **roku.com/link**. Your TV will generate a unique code that links your TV to your new account.

Roku accounts are free, and while a valid credit card is recommended, it is not required. If you choose to register with a credit card, you will be able to seamlessly rent movies, TV shows and download apps without having to enter in your credit card information each time. A unique PIN can be added to the account to prevent unauthorized purchases.

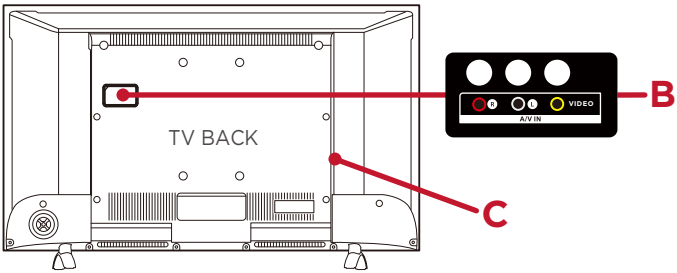
Get to know your TV

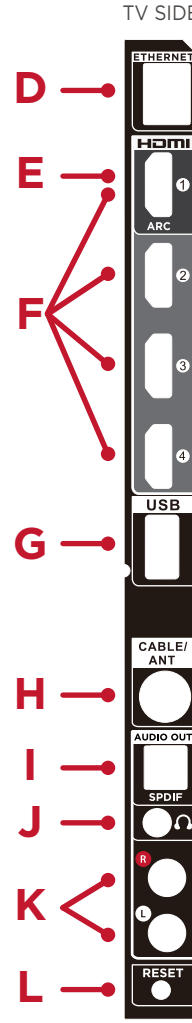


A **STATUS LIGHT** Glows when the TV is in standby, flashes when the TV is busy, flashes once with each button press of the remote control.

IR RECEIVER Receives signal from the TV remote.

B **COMPOSITE AV IN** If your device isn't able to connect using HDMI®, connect to your TV using standard red/white/yellow cables.





C **POWER PORT** Connect your TV to the power source with the included power cable.

D **ETHERNET** Connect external modem for a Wired network.

E **HDMI ARC PORT** Connect HDMI ARC (audio return channel) capable audio devices like sound bars or AV receivers.

F **4 HDMI® PORTS** Highest Quality audio/video connection. Connect cable box, Blu-ray player, gaming console, or other devices to your TV using HDMI cables.

G **USB PORT** Connect a USB device to access photos, music and movies.

H **ANTENNA/CABLE IN** Connect an outdoor VHF/UHF antenna or Cable TV feed.

I **SPDIF (DIGITAL AUDIO OUT)** Connect an optical cable to an external digital audio system.

J **HEADPHONE OUT** Connect headphones or other external speakers.

K **AUDIO OUT** Connect sound box or other external speakers.

L **RESET BUTTON** Press and hold for factory reset. Careful, you will lose all your settings!

Troubleshooting

Having trouble completing the guided setup? Don't worry, it's usually an easy fix.

4K Ultra HD Picture Quality

- 4K Ultra HD picture quality is largely dependent on the source. Make sure your source content is 4K UHD.
- To stream 4K Ultra HD content, we recommend a broadband speed of 16 Mbps or more for optimum viewing.
- For Cable, Satellite, Gaming Consoles, and Blu-Ray players, we recommend using "High-Speed HDMI cables."

My picture is too small (black bars on the side)

- Play your movie/video and press the (*) asterisk button.
- Select **Advanced Picture Settings.**
- Select **Picture Size**, select the picture size of your preference.

Cannot connect to wireless network

- Select the correct wireless network name and verify the password entered (case sensitive).
- Relocate the router from objects that interfere with performance (cordless phones, baby monitors, etc.).
- Reboot the router by disconnecting the power for more than 2 minutes and reconnect.

Problems connecting my cable/satellite box or antenna through a coax cable

- Make sure the cable connections to the TV and your device are securely fastened
- Select **cable/satellite box** or **antenna TV** input
- Select "**start finding channels**" and follow the on-screen instructions to perform a full channel scan

What is the remote code for programming my Universal or Cable/Satellite box remote control

ELECTRONICS RECYCLING INFORMATION FOR CONSUMERS

TCL strives to provide a high level of service to our customers and in the communities we serve, and recommends that consumers always look for a recycling or reuse alternative to throwing away televisions and other electronics. We encourage customers to recycle end-of-life electronic devices using one of the many convenient methods available today. In many states TCL has programs in place to enable consumers to drop-off and recycle televisions free of charge. For information on electronics recycling in all 50 states, including drop-off locations, please visit the "Electronics Recycling" area of the TCL USA website at **www.tclusa.com**.

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Keep the apparatus at least 20cm far away from the human body.

Important Information

CAUTION

RISK OF ELECTRIC SHOCK. DO NOT OPEN.

This symbol indicates that this product incorporates double insulation between hazardous main voltage and user accessible parts. When servicing, use only identical replacement parts.

Caution: To reduce the risk of electric shock, do not remove cover (or back). No user serviceable parts inside. Refer servicing to qualified service personnel.

This symbol indicates "dangerous voltage" inside the product that presents a risk of electric shock or personal injury.

This symbol indicates important instructions accompanying the product.

WARNING

To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. This product should not be exposed to dripping or splashing. No objects filled with liquids, such as vases, should be placed on the apparatus.

WARNING

The TV is unstable if it is not properly attached to the base or mounted to the wall. Please follow the base or wall mounting instructions provided in the User's Guide to ensure your safety.

WARNING	The batteries shall not be exposed to excessive heat such as sunshine, fire or the like.

Refer to the identification/rating label located on the back panel of your product for its proper operating voltage.

Cable TV Installer: This reminder is provided to call your attention to Article 820-40 of the National Electrical Code (Section 54 of the Canadian Electrical Code, Part 1) which provides guidelines for proper grounding and, in particular, specifies that the cable ground should be connected to the grounding system of the building as close to the point of cable entry as practical.

Important: This television is a table model and is designed to sit on a firm, flat surface. Don't place the TV on soft carpeting or similar surface because the ventilation slots on the bottom of the unit will be blocked, resulting in reduced lifetime from overheating. To assure adequate ventilation for this product, maintain a spacing of 4 inches from the top and side of the TV receiver and 2 inches from the rear of the TV receiver and other surfaces.

Also, make sure the stand or base you use is of adequate size and strength to prevent the TV from being accidentally tipped over, pushed off, or pulled off. This could cause personal injury and/or damage to the TV. Refer to the Important Safety Instructions on the next page.

The Power button (followed by the power symbol) on this TV and your remote control puts the TV into a very low-power standby mode but will not completely turn the power off. In order to completely shut the power off, you will need to disconnect the power cord from the outlet. The mains plug/appliance coupler is used as disconnect device, the disconnect device shall remain readily operable. If you prefer to completely turn off the device, you should install the TV in a manner that allows you to disconnect the power cord when desired.

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code, ANSI/NFPA No. 70-2011 (Section 54 of Canadian Electrical Code, Part 1) provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna-discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See following example:
