To whom it may concern,

SentryLock, LLC hereby attests that the device **FCC ID: W9T-SVAULT, SentryVault Electronic Vault Lid (Model SL50001)** utilizes the **Texas Instruments CC2652RB1FRGZR** wireless microcontroller and operates exclusively using **Bluetooth Low Energy (BLE) 1M** functionality.

Any other radio technologies or wireless functions supported by the chipset are disabled in the production firmware and are not available to the end user.

Sincerely,

A handwritten signature in black ink, appearing to read 'Scott Fisher', written in a cursive style.
