

915MHz Spring Antenna Specification

Manufacturer:

Zhongshu Electronics Co., Ltd., Dongguan City, Guangdong Province
No. 4, East Second Lane, Zhongshan North Road, Shangsha, Chang'an Town,
Dongguan City, Guangdong Province

型号 RECEIVER ANTENNA D1.4*86MM COLOR=black

1. Product Description

2. The antenna RECEIVER ANTENNA D1.4*86MM COLOR=red is a specialized antenna designed for 915/868MHz wireless communication systems. It has good VSWR performance, compact size, ingenious structure, easy installation, stable performance, and excellent resistance to vibration and aging.

3. Performance Parameters (Specifications)

Working Frequency: 915MHz

VSWR: ≤ 2.5

Gain: 2.17dBi

Input Impedance: 50 Ω

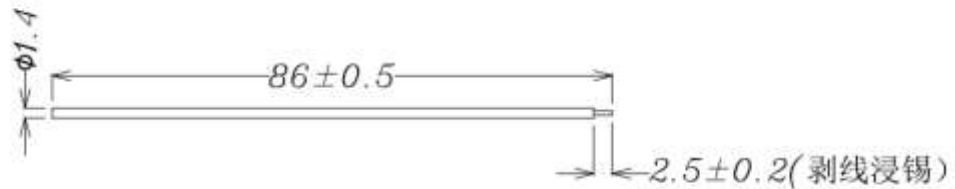

Wire Diameter: 0.5 mm

Interface: Direct welding

Antenna Color: red

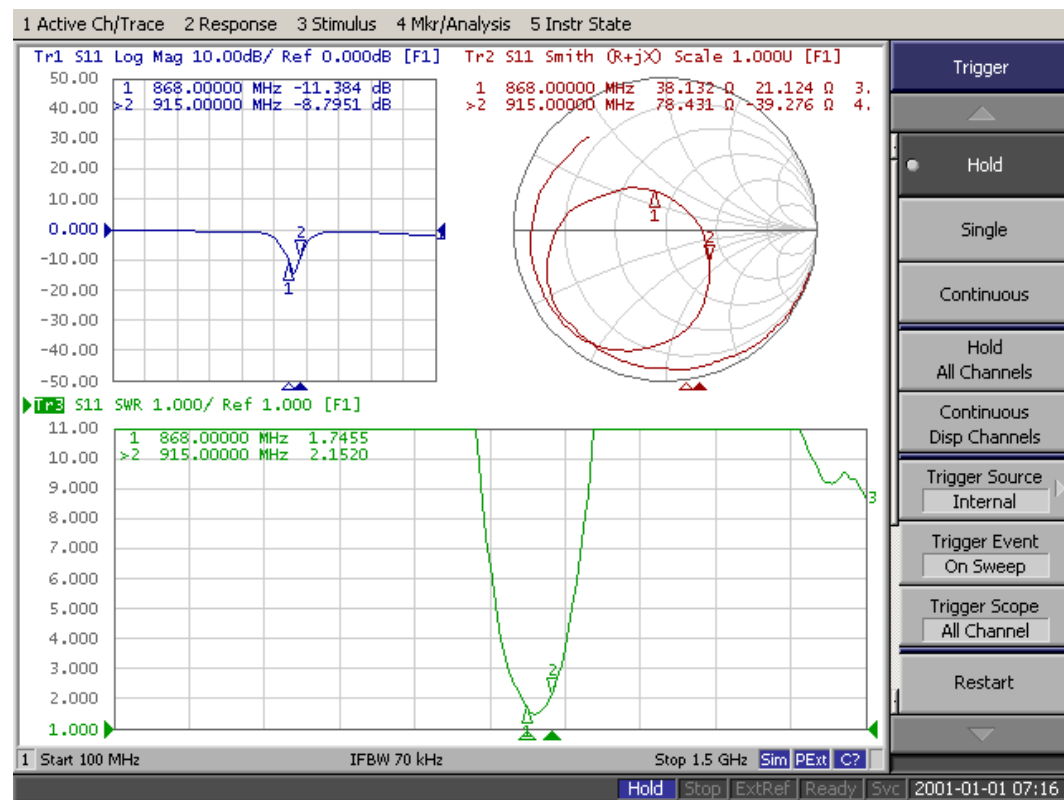

Material: copper

4. Machine Dimensions

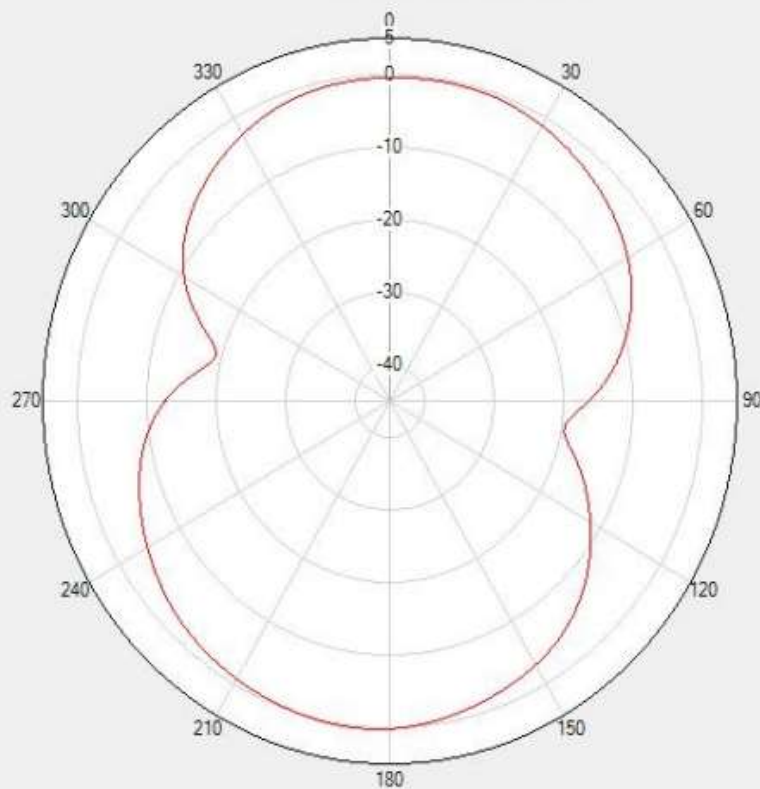

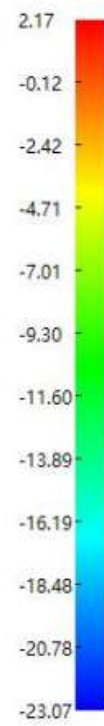

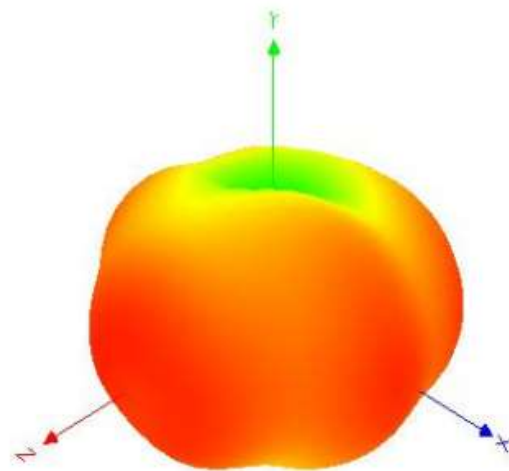

四、VSWR、Radiation Pattern

VSWR (Voltage Standing Wave Ratio)

Frequency (MHz) : 915

— 915
