Change colors	Press "ADD" button to choose light modes in the order below • gradual changing gradients • alternative colors • solid unchanging color • random flashing colors • light off
Apply TWS	Press "ADD" button for 3 seconds.

◆ Pair your speaker with your smart device

1. Place your speaker and the smart device no more than 1 meter away from each other.
2. Press the power button and hold for a few seconds to turn the speaker on. Upon powering on, a tone will be heard, the blue LED starts flashing, and it will be accompanied by a prompt notifying that the speaker has entered into the pairing mode.
3. Turn on Bluetooth on your device and choose SoundBox Plus in the list.
4. If the pairing is successful, the LED will change to solid blue. If the pairing fails after 60 seconds, please press the play/hand free button for 5 seconds and try again.
5. Long press the play/hand free button to disconnect the Bluetooth.
6. Note: if your smart device cannot discover the SoundBox Plus, please long press the play/hand free button and then try again.

◆ Have connecting problems via Bluetooth?

1. Make sure that your device is within 1 meter from the speaker.
2. Clear the Bluetooth pairing list on your device.
3. Master reset your device.
4. Try the pairing steps above again.
5. Problem still not solved? Contact DOSS customer service at support@dossav.com for assistance.

◆ Pair your device with the speaker via audio in cable

1. When using the audio input mode, control audio playback via the connected device.
2. When auxiliary cable is plugged, play mode will automatically switch to AUDIO IN mode.

◆ Play music via SD card mode

1.Card capacity: 32G or below. If your micro SD card is larger than 32G, please format it to FAT32 or FAT.
2.Support files: mp3, flac, wav.
3.Play order: music will play in the download/copy order

◆ Answer or end a call using your speaker

1. When there is an incoming call, each "eye" will flicker with a red/green/blue tint, while playing music, the "eyes" will light up and alternate between the various colors of a rainbow.
2. Briefly tap the play/hand free button to pick up.
3. Speak with a clear voice right into the built-in microphone located on the front section of the speaker.
4. Tap the play/hand free button again to end the call.

◆ Set true wireless stereo pairing

Start the first speaker

Turn on the speaker, press and hold the ADD button for 3 seconds.

Start the second speaker

Turn on the second speaker, press and hold the ADD button for 3 seconds.

Notes:

- Start the second speaker within 60 seconds, otherwise the stereo pairing setting of the first speaker will be canceled.
- If pairing succeeds, the volume control ring of the master speaker is in flashing blue, the secondary is in solid white.
  1. If pair the master speaker with your device via Bluetooth, the ring of the master is in solid blue, the secondary is in solid white.
  2. If pair the master speaker with your device via cable, the ring of the master is in solid red, the secondary is in solid white.
- The speaker will have stereo pairing automatically if they used to be paired.
- Press and hold Play/hand free button for 3 seconds to cancel the stereo pairing mode.
- Under wireless stereo pairing, you can only change the modes (Bluetooth/ audio-in) on the master speaker.

Use your speaker with Echo Dot

You are able to connect the Dot with SoundBox Plus via a 3.5mm auxin cable or Bluetooth. Please follow the steps below to set up via Bluetooth :

1. Download Alexa app and follow the standard setup procedure to get the dot connected to your home Wi-Fi network.
2. Set your speaker to Bluetooth mode. You can press the "Play/ hand free" button for 5 seconds to keep it in pairing status.
3. Run the Alexa app, tap Menu and then tap Settings.
4. Tap the Echo Dot in your list of Alexa devices and tap Bluetooth.
5. The SoundBox Plus should appear in the list of Bluetooth devices. If it does not, then press the "Play/hand free" button for 5 seconds and try again. Once listed, tap on the speaker to complete the pairing process.
6. To remove the device, return to Bluetooth > tap the name of the speaker > tap "Forget device" .

Notes:

1. Voice command will not be able to turn on/off the SoundBox Plus if you connect to it via Bluetooth /Aux cable.
2. To remove the battery saver option, please contact our customer service at support@dossav.com.

Trouble shooting

Problems	Solutions
No power	Battery may be in protection mode or drained. Plug in and charge the speaker.
Low battery prompt tone	Please recharge the speaker. It takes 4-5 hours to get fully charged.
Battery cannot be charged	• Make sure you are using a USB cable provided by DOSS or from a qualified manufacturer. • Use a different USB cable.
The paring with your mobile fails	• Turn off the Bluetooth on your device first and then turn on it. Remove your speaker from the Bluetooth list on the device and then research it. Try pairing them again. • Reset your speaker.
TWS mode does not work	Disconnect the Bluetooth, press and hold the "ADD" button separately.
No sound	• Please select SoundBox Plus as the playback device. • Increase the volume on your speaker and on your device. • Use a different music source. • Try pairing a different device. • If your smart device connects to the speaker together with other devices, pause other devices.
No sound when in audio-in mode	• Make sure the device connected to your speaker is on and playing music. • Increase the volume on your speaker and device. • Make sure the device is properly connected. • Try using a different cable. • Try connecting to a different device.
Poor sound quality/ buzzing sound	• Try using different music sources. • Increase the volume on device. • Check the device's audio settings. • Charge your speaker until fully charged.
The laptop reminds to install driver	This driver is not for your speaker, it's for your laptop Bluetooth function, please contact the customer service of laptop or Windows for help.
The speaker cannot be turned off	Long press the power button for 10 seconds.
Auto power off	Contact DOSS customer service at support@dossav.com to disable auto power off by firmware upgrade.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

FC

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
  (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
- The portable has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FC

- The marking information is located at the bottom of apparatus No naked flame sources, such as lighted candles, should be placed on the apparatus Attention should be drawn to the environmental aspects of battery disposal The use of apparatus in moderate climates CAUTION Danger of explosion if battery is incorrectly replaced.Replace only with the same or equivalent type. The batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like
  ⎓ The symbol indicates DC voltage

RECYCLING
This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.
