Descripción general del producto

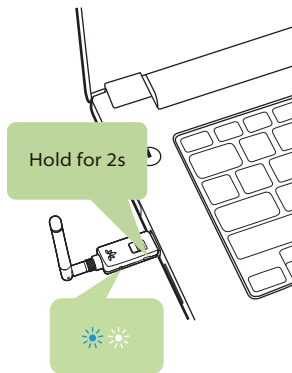

2 Button Functions

No.	Buttons	Functions
1	Multifunctional button (MFB)	Press & hold for 2 seconds to enter pairing mode Double-click while pairing to clear pairing history Click once to reconnect
2	Bluetooth /Auracast switch	Switch between classic Bluetooth & Auracast mode

3 LED Indicators

Indicator	Status
Alternate blue & white flashes	Pairing
Solid blue	Connected
Solid green	Streaming audio with aptX Adaptive codec

4 Pairing & Connecting

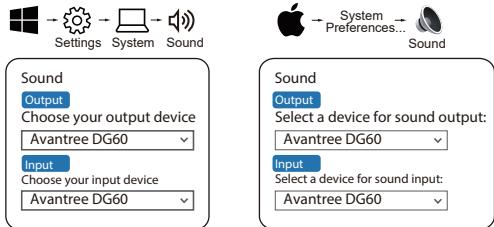

- 1) Plug the DG60 into a USB port. For first time use, the DG60 automatically enters pairing mode with the LED flashing BLUE & WHITE. If not, manually enter the DG60 into pairing mode: Press & Hold the MFB until the LED flashes BLUE & WHITE.
- 2) Put your Headphone / Speaker into "Bluetooth Pairing Mode". Please refer to your device's user manual for more information.
- 3) Once connected, the LED on the DG60 will turn SOLID BLUE.

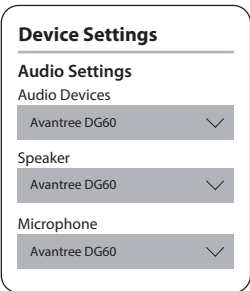

5 Use with PC

STEP 1 Follow "5 Pairing & Connecting" to connect your headphones and PC.

STEP 2 Choose "Avantree DG60" as the default audio input / output device.

STEP 3 For VoIP Call – please repeat the Step 2 in your meeting software (i.e. Teams, Zoom, Skype, etc.)

NOTE: A solid white LED indicates talk mode. A Blue or Green LED indicates music mode. The DG60 will auto-switch between talk & music modes. You can also manually swap modes by double-clicking the dongle's MFB button.

6 Use with PS5

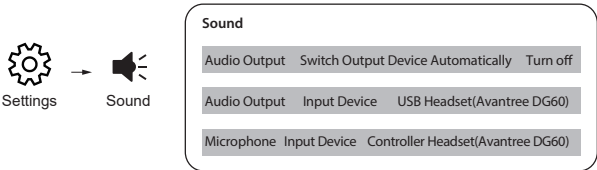

STEP 1 Plug the DG60 into the PS5's USB port and follow "5 Pairing & Connecting" instructions to connect your Bluetooth headphones.

NOTE:

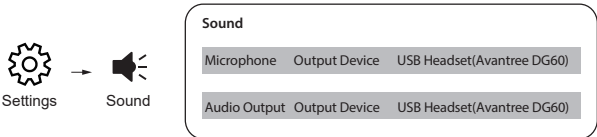

- 1) The pairing / connection happens through the DG60, not your PS5, so it won't show in "Bluetooth accessories".
- 2) Ensure Bluetooth is disabled on devices like your phone or smart watch to prevent accidental connection;
- 3) Ensure the headphones are Bluetooth as some headphones like "Sony PULSE 3D" or "Turtle Beach Stealth 600 Gen 2" use 2.4G technology and cannot connect to phones or the DG60.

STEP 2 Set the Audio Mode

- 1) If you're concerned about the audio quality drop in talk mode, you can use your PS5 controller's mic instead and set the dongle to music mode, Double-click the dongle's MFB to enter music mode for the best audio quality. A Blue LED indicates music mode. Or, if you don't need to chat and only need game audio, likewise set the dongle to music mode.

- 2) If you want to chat with your teammate using your headphones' mic, the DG60 should enter talk mode by default. A solid white LED indicates talk mode. You may find that the headphones' volume and audio quality drops in talk mode. This is due to a technological limitation with Bluetooth.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
