Menu

1. Before You Start

- Pillow Speaker – Place it on your pillow to help you sleep.
- Play audio via Bluetooth or use built-in white noise.
- Remote has a battery, or connect to power for all-night use.

Next

2. Button Functions

MP3/BT

- Press to switch modes.
- In BT, hold 3s to pair.
- In MP3, hold 2s to cycle modes.

- Press to set/cancel timer (30/60/90 mins).

3. How to Charge

- Use USB-C (5V, 0.5~2A) to charge.
- Fully charged: LEDs turn solid for 5s then off (~1.5 hrs).
- Low battery: Left LED blinks **white** (<10%).
- Playtime: up to 10 hours.

Menu

4. Use Bluetooth Mode

4.1 Ideal Placement

Place Slumber on top of your pillow, inside the pillowcase, for minimal sound leakage.

Note: Position the zippered side facing down.

Next

< Back

Back to
Menu

4. Use Bluetooth Mode

4.2 Enter Bluetooth Mode

Slide the switch to 'ON' to auto-pair. 'BT' LED flashes **red** & **blue**.

If not, hold 'MP3/BT' button for 3s to pair.

Next

< Back

Back to
Menu

4. Use Bluetooth Mode

4.3 Connect Your Phone

1☒ On your phone, turn on Bluetooth.

2☒ Select '**Slumber 2**' from the list.

Once connected, '**BT**' LED stays **blue**.

Next

< Back

Back to
Menu

4. Use Bluetooth Mode

4.4 Reconnect Tips

- Auto-connects to last device after turning on.
- If not, select '**Slumber 2**' on your phone to reconnect.
- Still not working? Re-pair manually.

Next

< Back

Back to
Menu

4. Use Bluetooth Mode

4.5 Adjust Volume

Adjust the volume on both the Slumber and your device.

Next

< Back

Back to
Menu

5. Use White Noise Mode

1☒ Turn on & press to switch to '**MP3**'.

2☒ Hold 2s to cycle playback modes.

"MP3"& related LED stays **white**.

Note: MP3 Mode = White Noise Mode

Slumber has 20 built-in white noise tracks.

No memory card is needed.

Next

Back to
Menu

7. Advanced Features

7.3 How to Reset

1☒ Turn on Remote.

2☒ In **BT** mode, hold + for 10s.

'**BT**' LED turns pink, then blinks red & blue.

This will clear pairing history and enter pairing mode.

Next

8. Common Errors & Fixes

- **Low volume?**

Place Slumber on the pillow and ensure both the remote and device volumes are at max.

- **Sound quality low?**

Hold the timer button for 5s to switch to Balanced mode.

- **One side not working?**

Ensure the AUX cable and remote are firmly connected.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
