Americhip hereby requests that the FCC withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

All of the information for which confidentiality is sought is not publicly available. All of the information for which confidentiality is sought is a trade secret of Americhip. Our trade secrets will be made available only to those persons and entities that enter into binding non-disclosure agreements with Americhip.
