Service Regulations and Explanation

After service

(A) Service system

1.Consultancies: Please read this user manual carefully before using this product.

2.Exchange service: within exchange time limit, for any indeliberate error during proper use, making sure the product as well as its accessories and package are all not damaged (if the appearance is damaged, it can only be repaired) you can either have it exchanged for a new one or repaired after the error is tested and examined;

3.Warranty service: within the warranty time limit, for any indelibe-rate error that occurs during proper use, warranty service is free for no charge (the headphone has warranty service for free within one year; for any deliberate damage, the warranty service should be paid).

4.Charged warranty service: within three years counting from one year after the date the product was purchased, any error repair will be charged; and user should pay the repair components, freight and labor cost.

5.Any of the below situation is not in the warranty service, but we provide charged service:

① The warranty date is expired;
② The warranty card is altered, or the series number differs from that of the product;
③ Accidental or deliberate damage is done to the product (for example: improper use against the user manual, improper set up which causes error, plugging in unmatched power, exposed to water, fallen etc.)
④ cannot provide valid warranty card or invoice (other but can prove that it is within the service limit);
⑤ Any error damage caused by force majeure such as earthquake,fire, flood, lightning strike etc.
⑥ Deliberate assembling, repair or reform without permission from our company.

(B) Explanation of After Service:

1. The date of purchased should be in accordance with that of the invoice, any failure to provide the valid proof, is subjected to the production date.
2. Quality problem does not include user's personal preference to tone and timbre.
3. The shell and user manual package are exclusive to warranty service.
4. For the model that production has been stopped, we only provide functional repair.
5. We are not responsible for any promises by retailer other than our company.

Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
