CAMERA DIMENSIONS

INSTALLATION

We recommend placing the camera at a spot where it can capture your baby's entire car seat so you can monitor him/her at all times. However, for safety measures, please make sure that the camera is not placed anywhere near the airbag. Please see next page for some installation options:

Option 1: Headrest Mount with Straps

Attach the camera mount to the headrest of your seat using Headrest Mount with Straps. Secure the mount by pulling both the vertical and the horizontal straps until they are tight and stable. The rotating knob on the mount can be used to adjust the angle of the mount.

Option 2: Spring Loaded Clamp

Attach the Spring Loaded Clamp mount onto the metal pole under your headrest, and then attach the camera to the mount. The rotating knob on the mount can be used to adjust the angle of the mount.

CONNECT TO POWER

Connect the camera to any USB port on your vehicle using the USB-C Power Cable included in the box. To ensure maximum safety, we recommend tucking the cable under the seat lining, the floor mat, or anything that'll prevent the cable from getting into your way. The camera will power on automatically every time you start your vehicle.

NOTES:

If your vehicle does not come with a USB port, you may use the 12/24V power socket ("cigarette lighter") as power source. (Adapter need to be purchased separately)

In order to make sure the camera can function properly, please make sure the USB port on your vehicle can provide at least 1A power supply.

USAGE PRECAUTIONS

Many vehicles provide constant power to the 12/24V outlet. In case the camera does not automatically power off when you shut down your vehicle, please unplug the camera from the power source so that it does not drain the power of your vehicle's battery.

SAFETY INFORMATION

IMPORTANT SAFETY INSTRUCTIONS

1. **SAVE THESE INSTRUCTIONS** – This manual contains important safety and operating instructions.
2. Before using the product, read all instructions and cautionary markings.
3. Do not expose Car Baby Camera to rain, moisture, or snow.
4. Use of an attachment not recommended or sold by the product manufacturer may result in a risk of fire, electric shock, or injury to persons.
5. To reduce risk of damage to Car Baby Camera and cable, pull by Car Baby Camera rather than cable when disconnecting from USB port.

6. Make sure cable is carefully secured so that it will not be stepped on, tripped over, or otherwise subjected to damage or stress.
7. Do not operate Car Baby Camera with damaged cable – replace it immediately.
8. Do not operate Car Baby Camera if it has received a sharp blow, been dropped, or otherwise damaged in any way; take it to a qualified serviceperson.
9. Do not disassemble Car Baby Camera; take it to a qualified serviceperson when service or repair is required. Incorrect reassembly may result in a risk of electric shock or fire.
10. To reduce risk of electric shock, unplug Car Baby Camera before attempting any maintenance or cleaning. Turning off controls will not reduce this risk.

WARNING: A failure to read and follow these warnings and instructions may result in a serious accident, including damaged property or a serious injury, including loss of life.

- Adhere to all applicable traffic laws and motor vehicle regulations applicable to the device.
- Consult local laws and regulations for any restrictions on installation or use.
- Never allow children to play with the device. Small parts may be a choking hazard.
- If the temperature changes rapidly, the system may not operate normally.
- When strong light directly enters a camera, objects may not be displayed clearly.
- The colors of objects on the Car Baby Camera with APP Controlled may differ from those of the actual object.

- Do not use alcohol or thinner to clean the camera. This will cause discoloration. To clean the camera, wipe with a clean cloth dampened with mild cleaner diluted with water and then wipe with a dry cloth.

The Car Baby Camera is a system that is intended as an aid to monitor your baby while you are driving by allowing for quick glances at your baby while facing forward and without having to turn around and take your eyes off the road. It is not a substitute for responsible and proper adult supervision of children and should not be used as such.

Make sure that at no time does the Car Baby Camera or cables come in any contact or within reach of your baby.

This product will only provide images of items that are within the field of view of the camera. Thus, it is imperative that the camera should be kept clean and unobstructed. And should be mounted so that its field of view includes the entire area around the car seat.

The Car Baby Camera is made for use inside your vehicle. It is not meant for outdoor use. Do not get any of the Car Baby Camera components wet or exposed to moisture. At any time, do not attempt to disassemble the camera, or use different cables other than the ones provided with the original packaging.

The car seat should be correctly mounted in the car as required by law. There is no need to have the baby in the car while the Car Baby Camera is installed, and should be kept away as a precaution.

Before mounting the camera, check your local laws and regulations

regarding where the device is legally allowed to be mounted.

The camera should be mounted securely as instructed. At no time should it be loose or not fixed to the headrest.

DO NOT attach the camera to the car seat. DO NOT lay the camera loosely in the car seat.

This system is powered by plugging the USB-C power cable provided in this package into your vehicle's USB media port. Do not attempt to use any other power source or cables to operate this system.

The Car Baby Camera is not a toy. At no time should children be allowed to play with it. It should only be operated by adults who have read the safety and operating instructions listed in this manual.

This product contains small parts. Adult installation is required. Exercise care when unpacking and assembling the product.

WARNING: Strangulation Hazard

Children have STRANGLED in cords. Keep the unit and cord more than 3 feet from the crib or car seat and out of baby's reach. NEVER place camera or cords within the crib or car seat. Secure the cord more than 3 feet away from the baby's reach.

MAINTENANCE & WARRANTY
