

Statement and explanations

The host XPi812 (FCC ID: **WYPEU0312**) is a new product with two certified modules integrated. Base on KDB996369 D02 requests, all conducted power were re-tested and the conducted signal tests can be re-used. Due to module integrated in the host we have performed SAR evaluation and test for the host, in which is AC power supply, so AC line conduction was tested, and considering the antenna is designed for the host (XPi812) when the module is integrated in the host, we have the ERP/EIRP and RSE re-tested. Please refer to the lab test results accordingly.

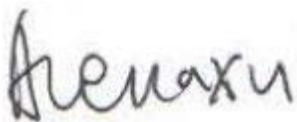

The integrated modules' information is listed below:

1. WWAN Module: HL7648
FCC ID: N7NHL7648
FCC Report No.: 16A0092R-HPUSP45V00

2. BLE Module: MDBT40
FCC ID: SH6MDBT40
FCC Report No.: ER/2015/10068, FR412101AE

Should you have any question or comment regarding this matter, please have my best attention.

Sincerely yours,
