

SAVE THESE INSTRUCTIONS

Thank you for purchasing this Sunbeam® 16 LED Power Failure / Night Light
Please read all instructions before using your new Power Failure / Night Light.

IMPORTANT: FOR INDOOR AND DRY LOCATION USE ONLY.

PARTS AND FUNCTIONS

Power Failure Light

Automatically turns on when power goes off.

Automatic Night Light

Functions as dusk to dawn night light.

Motion Sensor Light

Automatically on when sensors detect a lack of ambient light and motion; automatically off when motion stops or with an increase in ambient light.

Rechargeable LED Flashlight

Auto Dimming

Under night light mode, unit auto adjusts to a lower brightness if no motion is detected by motion sensor for 23 seconds.

IMPORTANT SAFETY INSTRUCTIONS

CAUTION: Risk of electric shock. This product is not a toy and is not intended for use by children. For adult use only. Do not plug in extension cords. Indoor use only. For safe use, plug only into exposed wall outlets where night light is ventilated and cannot contact bed coverings or other material that may present a fire hazard.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

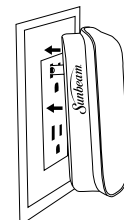

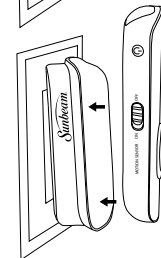

HOW TO CHARGE

STEP 1

Plug the induction charging cradle upright into a wall socket. (FIG. 1)

STEP 2

Place the LED power failure light onto the charging cradle. Charge for 24 hours before first use. Complete charging time is 8-10 hours thereafter. (FIG. 2)

FIG. 1**FIG. 2**
