

1.0 PURPOSE:

This document is intended to define the artwork file associated with the RW2 Pod Bottom Cover label. It also provides a reference to a procurement specification that defines the details associated with basic raw material and other manufacturing related requirements.

The purpose for having a procurement document is to avoid having to modify the artwork and production tooling for documentation revision changes due to non artwork related updates.

2.0 ARTWORK FILE:

Graphics defined by artwork file "LBL-0365 Label, RW2 Pod, Bottom Cover.ai"
See below for image.

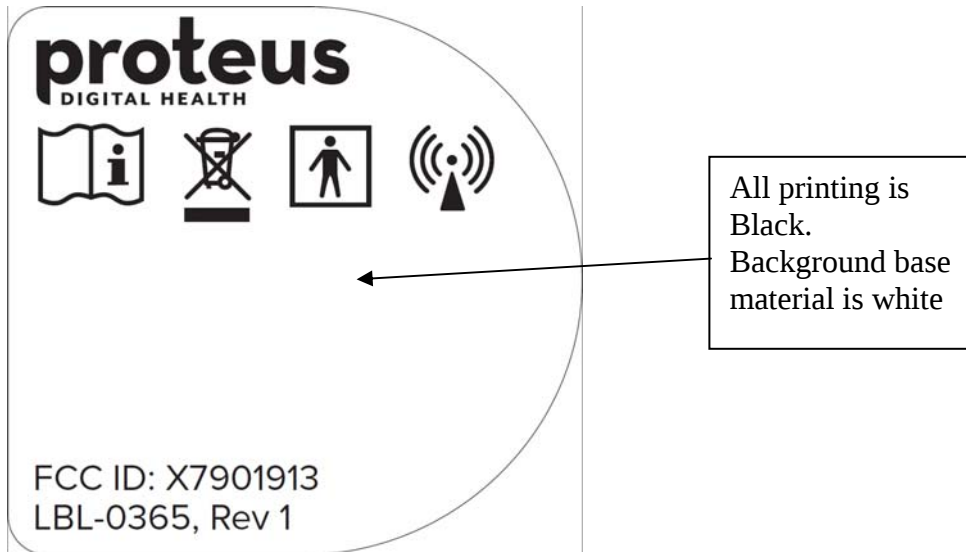

3.0 PROCUREMENT SPECIFICATION:

The following document should be used in conjunction with the artwork file to define the requirements.

Document Number	Description
SPC-1990	Procurement Spec for LBL-0365

4.0 GRAPHICS IMAGE:

Note: The image shows as square due to the challenge of importing the image into this document. The actual label is 'D' shaped.

REVISION HISTORY				
DCO	Rev	Release Date	Description of Change	Originator
EtQ	1	EtQ	Initial release to support LBL-0365 label specification release.	T. Schoenberger
