

SkyGolf® **SkyTags**

USER GUIDE

Setting Up SkyTags

1. Download SkyCaddie Mobile GPS from the Apple App or Google store.
2. Sign in using your SkyGolf username and password

Click on Practice and Club/SmartTags

Attach the tag to your club as illustrated

Setting Up SkyTags, cont.

Choose the club from the list that you would like to program and follow the onscreen instructions

Setting Up SkyTags, cont.

Calibrate the club by following the onscreen instructions

If right handed, put the club under your left arm.

If left handed, put the club under your right arm.

Ready

Place your device flat on the club face. Hold it firmly with both hands.

When ready, press and hold the blue pads with your thumbs.

Follow the directions

Make sure your device is level.

To continue, tilt your device to position the circle inside the square.

Follow the directions

Smoothly rotate the club and SkyCaddie around your body.

Keep your device on the club face. Don't let it slip.

Follow the directions

Setting Up SkyTags, cont.

Confirm club details. Now your Tag is programmed to that specific club and ready to capture swings

Edit Bag Setup Tag

How To Use Practice Sessions With SkyTags

Go to Menu, then Practice Swings

Now your club and tag are ready to capture swings.

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Canadian Compliance Statement

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Click on the "Legal & Regulatory" link on the APP, it will direct you to the electronic label page.
