Safety And Maintenance

Safety Guidelines
In order to achieve maximum safety while using your Swiftpoint Z3, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact Swiftpoint support at www.swiftpoint.com/support.

Do not attempt to operate the device under abnormal current loads.

The Swiftpoint Z3 requires sufficient power when charging from a USB connection. Non-powered USB hubs and ports like those found on keyboards and peripherals may affect the charging process.

Keep the device away from liquid, humidity or moisture. Operate the device only within the specific temperature range 0°C (32° F) to 40° C (104° F). Should the temperature exceed this range, unplug and/or switch off the device in order to let the temperature stabilize to an optimal level.

Avoid looking directly at the tracking beam of your mouse or pointing the beam in anyone else's eye. Note that the tracking beam is NOT visible to the naked human eye and is set on an Always-On mode.

Comfort
Research has shown that long periods of repetitive motion, improper positioning of your computer peripherals, incorrect body position, and poor habits may be associated with physical discomfort and injury to nerves, tendons, and muscles. Below are some guidelines to avoid injury and ensure optimum comfort while using your Swiftpoint Z3.

Position your keyboard and monitor directly in front of you with your mouse next to it. Place your elbows next to your side, not too far away and your keyboard within easy reach.
Adjust the height of your chair and table so that the keyboard and mouse are at or below elbow-height.
Keep your feet well supported, posture straight and your shoulders relaxed.
During use, relax your wrist and keep it straight. If you do the same tasks with your hands repeatedly, try not to bend, extend or twist your hands for long periods.
Do not rest your wrists on hard surfaces for long. periods. Use a wrist rest to support your wrist while gaming.
Customize the keys on your mouse and keyboard to suit your use-case in order to minimize repetitive or awkward motions.
Do not sit in the same position all day. Get up, step away from your desk and do exercises to stretch your arms, shoulders, neck and legs.

If you should experience any physical discomfort while using your mouse, such as pain, numbness, or tingling in your hands, wrists, elbows, shoulders, neck or back, please consult a qualified medical doctor immediately.

Maintenance And Use
The Swiftpoint Z3 requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device from the computer and clean it using a soft cloth or cotton swab to prevent dirt buildup. Do not use soap or harsh cleaning agents.

To get the best experience in movement and control, we recommend a mouse mat. Some surfaces will cause undue wear on the feet requiring constant care and eventual replacement.

Battery Warning
The Swiftpoint Z3 contains a Li-ion rechargeable battery. In general the life expectancy of such batteries is dependent upon usage. If you suspect the Li-ion rechargeable battery inside the Swiftpoint Z3 may be drained (has low charge), try charging it.
Caution: Do not open, mutilate, or expose to conducting materials (metal), moisture, liquid, fire, or heat. Doing so may cause the batteries to leak or explode, resulting in personal injury. Battery life varies with usage.
