

Two way radio

USER'S MANUAL

Model name: TG-Q7
Trand name: Quansheng
FCC ID: XBPTG-Q7

USER'S MANUAL

QS TWO WAY RADIO

Thank you for purchasing this Radio.

We believe this easy-to-use radio will provide stable and reliable communication for you.

QS Radio incorporates the latest advanced technology.

As a result, we know that you will be pleased with the quality and features of this product.

PRECAUTIONS BEFORE USING

Please read the User's Manual before using. It gives you important information about how to operate the portable radio.

Please put the radio and accessories where the children can not reach.

Maintenance can only be performed by professional technicians.

Please use the standard battery pack and charger in order not to destroy the radio.

Please use the standard antenna, in order not to shorten the distance.

Do not expose the radio to sunlight for a long period of time, nor put it near the heat, nor use it in a high temperature environment.

Do not put it in extreme dust or wet nor on unsteady surfaces.

Keep it dry. (Rain or moisture will erode the electronic board).

Do not transmit when the antenna is not installed.

If you find bad smell or smog, please turn off the radio immediately. And take the battery off the radio, then contact with QS agent.

FEATURES

- ☐ PTT & headset
- ☐ Channel scan
- ☐ Time-out-timer(TOT)
- ☐ Low power alarm
- ☐ Squelch level adjustable
- ☐ CTCSS/DCS
- ☐ Busy channel lock

SUPPLIED ACCESSORIES

Carefully unpack the portable radio. We suggest that you check the following items before you throw away the packing materials.

STANDARD SUPPLIED ACCESSORIES

ITEM	QTY
Portable radio	1
Li-ion battery pack(3.7V)	1
Battery charger	1
Belt clip	1
External headset	1
User's manual	1

STANDARD SUPPLIED ACCESSORIES

Li-ion battery pack (3.7V)

Battery charger

Belt clip

External headset

User's manual

CHARGING NOTES (1)

Charging the Li-ion battery pack:

- Battery packs are not charged when they are shipped. Charge them before using.
- Initially charging the battery pack after purchase or extended storage (longer than 2 months) will not bring the battery pack to its greatest capacity, which can be done only after repeated charging and discharging two or three times.
- The average use time of battery pack is 15 hours
- After the battery is charged to its highest capacity, and then use it on the radio. If the radio still shows low power, please change a new battery pack.
- Do not short-circuit the battery terminals or throw the battery into fire.
- Never attempt to remove the casing from the battery pack.

CHARGING NOTES(2)

- Insert the input plug into 110V power, supply the indicator turns red; insert the output plug into the battery jack, the indicator turns orange; when finishing charging, the indicator turns red again.

ATTACHING BATTERY PACK

- When attaching, take out the battery cover from the radio, put the battery into the radio aligning to the battery slot, then attach the battery cover.

- When releasing, turn off the radio firstly.

- 1 Take out the battery cover;
- 2 Pull "UP" to take out the battery.

INSTALLING BELT CLIP

- Attach the belt clip to the radio as illustrated on the right.

INSTALLING EXTERNAL HEADSET

- Insert the headset plug into the headset jack.

NOTE: Please use the specified headset to make sure good communication.

DIAGRAM

BASIC OPERATION

Power switch

- Press "Power switch" more than 2 seconds, the power is on. Operate again, the power is off.
- Transmitting
 - 1 Press and hold "PTT" key, then speak into the microphone in normal speaking tone. Please keep the microphone 2.5cm away from your lips to make sure good communication with the receiver.
 - 2 Press "PTT" in the headset, then speak normally to make sure good communication with the receiver.
 - 3 Release "PTT" key to receive signals.

Channel up(+) /down(-) key

- Press key "CH+" or "CH-" to choose your desired channel, and there will be voice prompt of the current channel number.
- press key "CH+" or "CH-" more than 2s to scan upwardly or downwardly.

Volume "+" "-"

- Press key "+" or "-", the volume is turned up or down, and there will be voice prompt of the current channel number.

Indicator

- Transmitting: Red LED Light
- Receiving: Green LED Light
- Standby: Green LED Light glitters every 5 seconds.

FUNCTION INSTRUCTION

Channel Scan

- 1 Press key "CH+" or "CH-" more than 2s to scan upwardly/downwardly.
- 2 Set it in the " Scan appending" via programming.
- 3 Press "PTT" to exit.

Note: When the scanning radio receives the signal, it stops in this channel if you press "PTT" ; It keeps scanning after the signal disappear in 5s if you do not press "PTT" .

Time-Out-Timer (TOT)

To limit the calling time, the radio will stop transmitting, and you will hear the warning tone if it transmits over the set time.

Low Power Alarm

Audibel tone will remind you when the battery is exhausted.

FUNCTION INSTRUCTION

Squelch Level Adjustable

It helps to minimize interference from undesired weak signals and helps weak signals to be heard.

CTCSS/DCS

Set up work groups/users with unique CTCSS/DCS to prevent disturbance in the same frequency.

CTCSS: 50 groups DCS: 208 groups.

Busy Channel Lock

When it is on, it is forbidden to transmit if receiving the signals.

You will hear "Beep" when press "PTT" .

SPECIFICATIONS

GENERAL

Frequency range	UHF:400-470MHz
Rated voltage	DC3.7V(Rechargeable Li-ion battery)
Memory channel	99Channels
Antenna impedance	50Ω
Working manner	Same frequency single operation or different frequency single operation
Dimensions	89mmX46mmX20mm

TRANSMITTER

Output power	2W
Modulation	11KΦ F3E
Maximum frequency deviation	≤2.5KHz
Spurious radiation	<7.5uW
Preemphasis character	6dB/Per fold
Emission current	≤ 1.3A
CTCSS/DCS deviation	0.375KHz±50Hz
Modulation sensitivity	12mV
Modulation distortion	≤5%

RECEIVER

Sensitivity	-123dBm/-121dBm(12dB SINAD)
Modulation receiver bandwidth	5KHz
Audio frequency power	160mv/32Ω
Audio distortion	10%
Blocking	≥85dB
Intermodulation	60dB
Adjacent channel selectivity	70/50dB
Spurious rejection	≥65dB

All stated specifications are subject to change without notice or obligation.

SAFETY TRAINING INFORMATION

Your Fujian Nanan Quansheng Electronics Co., Ltd. radio generates RF electromagnetic energy during transmit mode. This radio is designed for and classified as “Occupational Use Only”, meaning it must be used only during the course of employment by individuals aware of the hazards, and the ways to minimize such hazards. This radio is NOT intended for use by the “General Population” in an uncontrolled environment.

This radio has been tested and complies with the FCC RF exposure limits for “Occupational Use Only”. In addition, your Fujian Nanan Quansheng Electronics Co., Ltd. radio complies with the following Standards and Guidelines with regard to RF energy and electromagnetic energy levels and evaluation of such levels for exposure to humans:

- ▮ FCC OET Bulletin 65 Edition 97-01 Supplement C, Evaluating Compliance with FCC Guidelines for Human Exposure to Radio Frequency Electromagnetic Fields.
- ▮ American National Standards Institute (C95.1-1992), IEEE Standard for Safety Levels with Respect to Human Exposure to Radio Frequency Electromagnetic Fields, 3 kHz to 300 GHz.
- ▮ American National Standards Institute (C95.3-1992), IEEE Recommended Practice for the Measurement of Potentially Hazardous Electromagnetic Fields— RF and Microwave.

The information listed above provides the user with the information needed to make him or her aware of RF exposure, and what to do to assure that this radio operates with the FCC RF exposure limits of this radio.

Electromagnetic Interference/Compatibility

During transmissions, your Fujian Nanan Quansheng Electronics Co., Ltd. radio generates RF energy that can possibly cause interference with other devices or systems. To avoid such interference, turn off the radio in areas where signs are posted to do so. **DO NOT** operate the transmitter in areas that are sensitive to electromagnetic radiation such as hospitals, aircraft, and blasting sites.

Occupational/Controlled Use

The radio transmitter is used in situations in which persons are exposed as consequence of their employment provided those persons are fully aware of the potential for exposure and can exercise control over their exposure.

Attention:

This radio complies with IEEE and ICNIRP exposure limits for occupational/controlled RF exposure environment at operating duty factors of up to 50% and is authorized by the FCC for occupational use only. An appropriate warning label is affixed to all units. In order to comply with RF exposure requirements, a minimum distance of 2.5cm must be maintained when held-to-face, and body-worn operations are restricted to the approved original accessories (belt clip).

Do not use this device when antenna shows obvious damages
