QUICK START GUIDE: SIDE A (155 x 620 mm folded in 4 accordion style)
PAPER: SMOOTH MEDIUM WEIGHT CARDSTOCK

01

REMOVE THE ONE SPEAKER FROM THE BOX AND THE CLOTH BAG.

02

LACE THE SPEAKER IN LISTENING POSITION AND PLUG THE CABLE INTO THE UNIT THEN INTO THE WALL.

03

OPEN THE WI-FI SETTINGS IN YOUR IOS DEVICE AND SELECT "SETUP NEW AIRPLAY SPEAKER"

04

FOLLOW THE ONSCREEN PROMPTS, SHARE YOUR WI-FI SETTINGS AND DOWNLOAD THE ARCHT ONE APP

ACTIVATE/DEACTIVATE WIRELESS NETWORK:
Touch and hold VOL- and Play/pause button for 5s can activate or deactivate wireless network. When wireless network is activated, with no source input for 15min, the unit will auto-switch to network standby. When wireless network is deactivated, with no source input for 15min, the unit will auto-switch to off mode.

POWER CONSUMPTION:
The power consumption of the product in networked standby is 5.6W.
The power consumption of the product in off mode is 0.4W.

QUICK START GUIDE: SIDE B (155 x 620 mm folded in 4 accordion style)
PAPER: SMOOTH MEDIUM WEIGHT CARDSTOCK

WARRANTY

To receive a Limited Three Year Warranty, free of charge, you must register your product within 30 days from date of delivery. For your convenience ARCHT offers full warranty details and online warranty registration at:
www.archtaudio.com/one/warranty
You can register your product two different ways:

Through the ARCHT One App:
Click 'warranty' in the main menu.
Follow the instructions.

Through the ARCHT Website:
Go to www.archtaudio.com/one/warranty.
Follow the instructions.

Important!
Please retain your receipt. A copy of your receipt will be required should your speaker require servicing in the future.

SOUND ARRAY

The ARCHT Sound Array is an instrument engineered to closely replicate the acoustics associated with live musical performances. With this proprietary technology, the ARCHT One delivers sound in a rich, immersive, 360-degree fashion, producing consistent sound quality throughout the room and enhancing its ambience. The ARCHT One dispels the notion that optimum sound quality can only be enjoyed from isolated sweet spots in any given space. With the ARCHT One, an entire room is transformed into an enveloping sweet space, creating an unparalleled audio experience.

PAPER: SMOOTH WHITE PAPER

16) This symbol is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may not be of sufficient magnitude to constitute risk of fire and electric shock.

17) This symbol is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying this product.

18) The rating for the USB output is 5V, 2.1A.

WARNING!
To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

This device complies with Part 15 of the FCC Rules / Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux normes radio applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

MPE Requirements
To satisfy FCC / IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.

MARKINGS: SIDE B (155 x 310 mm folded in 2)
PAPER: SMOOTH WHITE PAPER

To ensure compliance, operations at closer than this distance is not recommended.

Les antennes installées doivent être étudiées de façon à ce que la population ne puisse y être exposée à une distance de moins de 20 cm. Installer les antennes de façon à ce que le personnel ne puisse approcher à 20 cm ou moins de la position centrale de l'antenne.
La FCC des États-Unis stipule que cet appareil doit être en tout temps éloigné d'au moins 20 cm des personnes pendant son fonctionnement.

Region Selection
Limited by local law regulations, version for North America does not have region selection option.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émission par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

Regulatory label at the bottom of the unit

IMPORTANT SAFETY INFORMATION
1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow the instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with manufacturer's instructions.
8) Do not install near any heat source such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or object have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) An appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
