

USING YOUR TABLET

Using the Force Trainer II requires your own tablet device for connection with the headset. Only certain tablets are compatible with the product since the screen size of the device must correspond and align with the geometry of the Force Trainer II. The product is designed to work with the following most popular tablet devices including:

Made for
• iPad Air 2
• iPad (5th generation)
• iPad (4th generation)
• iPad 2

Made for Android devices including:
• Samsung Galaxy Tab S 10.5
• Samsung Galaxy Tab 10.1
• Samsung Galaxy Note 10.1

THE FORCE TRAINER II APP IS AVAILABLE FOR FREE

Before using the Force Trainer II, you will need to download the free app onto your tablet. Search "The Force Trainer".

(AAA LR03) x1
Requires 1 x 1.5V AAA LR03 batteries

USING THE HEADSET

PROPER HEADSET FIT

Fronthead Sensor – Must lay flat above your eyebrow as shown, making direct contact with skin, clear of any hair.

To ensure hair is not in the way of proper sensor contact, the hair should be longer hair should tie their hair back.

Behind Ear Sensors – Must lay flat directly behind ear, making direct contact with skin, clear of any hair.

PAIRING THE HEADSET

The following are general pairing instructions. Devices may vary. Consult your device's Bluetooth pairing instructions.

1. Make sure Bluetooth is turned on in your device's settings.
2. Press the Pairing button on the headset.

In your device's Bluetooth menu search for and select "Force Trainer II".

NOTE: The headset will connect automatically to previously paired device.

CLEANING

Clean contacts on headset with rubbing alcohol on a paper towel. Lightly dust base and rear panels with a soft cloth. Do not use chemicals.

TROUBLESHOOTING

- Remain still during training. Unnecessary movement may affect your concentration.
- Clear your mind, relax and focus.
- Breathe slowly and evenly. If you are having trouble, try taking a deep breath while keeping your focus.
- Concentrate on the Hologram image. Visualize what you want it to do, imagining it in that position.
- You may also try a single idea in your mind or try focusing on an single point or detail on The Force Trainer II.

MENTAL PREPARATION

- The Bluetooth indicator light is not turning on.
Adjust the headset so that the force sensors are placed flat on your forehead and directly behind your ears. Ensure that the sensors are making direct contact with your skin and not being blocked by hair, jewelry or other things.
- The Bluetooth headset is not pairing with the tablet device.
Check your Bluetooth pairing settings on your tablet device and make sure it is turned to "on".

IMPORTANT!

KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE - DO NOT DISCARD

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not properly installed and used, may cause harmful interference to radio communications. If you are experiencing interference with your radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT: In an environment with electrostatic discharge, the headset should be used in a safe manner. Do not touch the batteries and wait 5 minutes and then replace the batteries.
