
VelocityOne F-RX Wheel Rim for Xbox

Operating instructions

1. Overview:

This product is a direct drive steering wheel face wheel, specifically designed for use with TB-RS001 and TB-RS005 bases.

2. Functional features:

2.1 Platform: After adapting to the base, it is suitable for PC (D-input)&XBOX ONE.

2.2 The left and right paddles adopt Hall chip contactless switch design, which has a longer service life.

2.3 has 2 POVs and 12 independent mechanical action control keys.

2.4 has 3 high-precision encoders and 3 12 speed rotary switches, which can quickly adjust the content on the LCD screen.

2.5 Working voltage: Input: DC 5V. Working current: Output < 230mA DC.

2.6 The panel has RGB lighting effects and can be adjusted for different colors.

2.7 USB port can be used for firmware upgrade.

2.8 Panel can be used with multiple bases.

3. Product schematic diagram:

3.1 Front of steering wheel:

3.2 Diagram after pairing with the base:

4. Connection method:

4.1 Install the dough tray onto the base.

4.2 Press and hold the MENU+VIEW button on the base for 5 seconds, and the X-GUIDE button will flash to enter pairing mode.

4.3 Press and hold the SELECT key for 5 seconds, the dial light will flash and enter pairing mode.

4.4 After the face plate is successfully connected to the base, the light stays on.

4.5 At this point, relevant operations can be carried out.

RECYCLING

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

The symbol indicates DC voltage

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
- This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

The product is a low power device and its output power is lower than FCC SAR exemption level.

- **IMPORTANT NOTE:** In the event that this condition cannot be met (for example certain laptop configurations or co-location with another transmitter), then the FCC authorization is no longer considered valid and the FCC ID cannot be used on the final product. In these circumstances, the OEM integrator will be responsible for re-evaluating the end product (including the transmitter) and obtaining a separate FCC authorization.
-
- **End Product Labeling**
- The final end product must be labeled in a visible area with the following: “**FCC ID: XGB-2501FRX**”. The grantee's FCC ID can be used only when all FCC compliance requirements are met.
- **Manual Information To the End User**
- The OEM integrator has to be aware not to provide information to the end user regarding how to install or remove this RF module in the user's manual of the end product which integrates this module. The end user manual shall include all required regulatory information/warning as show in this manual.

Industry Canada statement

- ❶ This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:
 - 1) this device may not cause interference, and
 - 2) this device must accept any interference, including interference that may cause undesired operation of the device.
- ❶ Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
 - 1) l'appareil ne doit pas produire de brouillage, et
 - 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
- ❷ This Class B digital apparatus complies with Canadian CAN ICES (B) /NMB (B).
- ❷ Cet appareil numérique de la classe B est conforme à la norme NMB-B du Canada.
- ❸ This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter, except tested built-in radios.
- ❸ Cet appareil et son antenne ne doivent pas être situés ou fonctionner en conjonction avec une autre antenne ou un autre émetteur, exception faites des radios intégrées qui ont été testées.
- ❹ The County Code Selection feature is disabled for products marketed in the US/ Canada.
- ❹ La fonction de sélection de l'indicatif du pays est désactivée pour les produits commercialisés aux États-Unis et au Canada.
