PMN: 7" Core Tablet

HVIN:TBBRN36020962

In The Box

7" Core Tablet

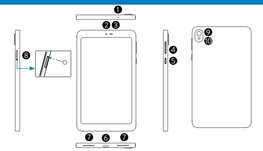
Quick Start Guide

USB-C Cable

Memory Card Ejection Pin

The USB-C port can connect to headphones that are compliant with the USB-C standard.

Get To Know Your Tablet



1. Microphone
2. Camera (Front)
3. Light Sensor
4. Volume Control
5. Power button
6. USB-C/Headphones
7. Speakers
8. Memory Card Slot
9. Camera (Rear)
10. Flashlight

To learn more about your tablet, go to **Settings** > **About tablet** > **Get to know your tablet** for detailed information.

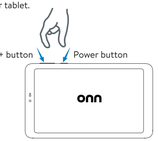
Get Started

Turn on your tablet

Press and hold the **Power** button for a few seconds until the tablet turns on.

Turn off your tablet

Press the **Power** button and **Volume+** button at the same time to turn off your tablet.



Navigation Mode

The navigation mode on your tablet allows you to choose between Gesture navigation and 3-Button navigation.

Gesture navigation

Swipe up to go home

Swipe up and hold for recent apps

Swipe from the left or right edge of the screen to go back

3-Button navigation

1. Back button
2. Home button
3. Recent apps button

To select the mode that best fits your preferences, go to **Settings** > **System** > **Gestures** > **Navigation mode**.

Factory Reset

Factory reset

To erase all data from your tablet, you can reset your tablet to factory settings. Please back up important data before performing the factory reset.

To perform a factory reset, follow the below steps:

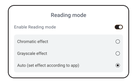
1. From the Home screen, swipe up to access App tray and tap **Settings**
2. Tap **System** > **Reset options** > **Erase all data (factory reset)**.
3. Enter your PIN (if previously set).
4. Tap **Erase all data** again to confirm.
5. Your tablet will start the reset process.

Force shutdown

If your device is not responding and you want to perform a force shutdown, simply press and hold the **Power** button for about 8 seconds.

Reading Mode

Reading mode optimizes the screen display to enhance the reading experience and reduce eye strain during prolonged use. To enable Reading mode and choose desired effect, go to **Settings** > **Display** > **Reading mode**.



- **Chromatic effect**: Enhances colors for better vibrancy and contrast.
- **Grayscale effect**: Converts the display to grayscale, minimizing distractions and improving text clarity.
- **Auto**: Automatically applies specified reading effects for each app, personalizing the reading experience.

Quick Wake & AI Assistance

Single tap to wake

Single tap to wake lets you easily activate your tablet's screen with a tap, allowing quick access without pressing the **Power** button.

To enable this function, go to **Settings** > **Display** > **Tap to wake**

Google Gemini

Google Gemini is your AI assistant that enhances interactions and aids in writing, learning, and creativity. To access the Gemini app, press and hold the **Power** button.

Note: Gemini requires an internet connection to function properly.

Other Useful Features

System maintenance

Your tablet receives guaranteed software security updates for 3 years from the launch date, providing access to the latest features, including an upgrade to Android 17, and ensuring security with regular patches.

Widevine Level 1

Experience enhanced performance and efficiency with Widevine Level 1, providing the highest security in Google's DRM technology for streaming HD, 4K, and HDR content while optimizing system resources for smoother multitasking.

Troubleshooting

Problem	Solution/Prevention
Cannot turn my device on.	• Press and hold the **Power** button for more than 3 seconds. • Charge the tablet for 10-15 minutes.
My tablet does not charge.	• Check that the power outlet is working and that the charger is properly plugged into the outlet. • If the current charger is not working, try using another charger. It is recommended to use a 10W charger for optimal charging performance. • Reconnect the charger to the device and let it charge for 10-15 minutes. Then press the **Power** button to check if there is a charging prompt.
My tablet cannot connect to Wi-Fi.	• Get the tablet close to the router, if it doesn't fix the problem, try restarting the tablet or the router.
My tablet runs slow.	• Close or uninstall unwanted apps. • Check if the storage is almost full. If it is, consider uninstalling some apps or deleting unnecessary files.
My tablet's system is abnormal.	• Uninstall third-party apps. • Restore factory settings.

Safety Instructions

Refer to the electrical and safety information on the tablet before installing or operating the appliance.

- Do not install near any heat sources such as radiators, heat regulators, stoves or other equipment (including amplifiers) that generate heat.
- Use only accessories specified or provided by the manufacturer (e.g., dedicated power adapters, batteries, etc.). Replacing with an incorrect battery type may compromise safety measures.
- The power plug should be kept in a state that can be disconnected at any time to avoid emergencies.
- The device should not be exposed to dripping or splashing water. Use the device at an ambient temperature between 0° and 35° C (32° to 95° F) and at an altitude of no more than 2000 m (air pressure not less than 80kPa). Store or transport the device at ambient temperatures between -20° and 50° C (-4° to 122°F). Low or high temperature conditions may cause the device to change its behavior to regulate its temperature.

We want you to have a safe and enjoyable experience. Please read the following instructions and precautions before using the tablet.

- Warning: This product may contain a chemical known to the State of California to cause cancer, birth defects, or other reproductive harm.
- Avoid using the tablet in extremely hot, cold, dusty, and humid

Safety Instructions

environments.

- The tablet is not moisture-proof/waterproof. Avoid using tablets around water sources.
- Avoid dropping or forcibly placing the tablet on a hard surface. This may damage the screen or internal electronics and void the warranty.
- Do not use alcohol, thinner, or benzene to clean the tablet surface.
- Use only cleaning products that are designed for computer tablet devices.
- Do not use the tablet while walking or driving.
- To prevent possible hearing damage, do not listen at high volumes for long periods of time. When you are exposed to high sound pressure, a warning will be displayed on the device.
- The images in this guide may differ slightly from the actual product.
- Charge the tablet battery under any of the following circumstances:
  1. The battery level icon indicates low power, by showing a drained, red battery icon.
  2. The tablet powers-off automatically, and continues to do so even after restarting.
  3. On-screen buttons do not work.
- Do not suddenly disconnect the tablet when formatting, uploading or downloading data. This can lead to program errors (e.g., system or screen "freezing").
- Electrostatic discharge is normal and can occur in electronic devices, and although it is not life-threatening, it can damage files or damage memory and its contents.
- Disposing of the battery in a fire or hot oven, or mechanically crushing or cutting the battery, may result in an explosion.
- Leaving the battery in extremely hot surroundings, such as sunlight, fire, or hot surfaces, may result in an explosion or leakage of flammable liquid or gas.
- Batteries subjected to extremely low air pressure may cause an explosion or leakage of flammable liquid or gas.
- Disassembling the tablet will void the manufacturer's warranty.
- Tablet functionality, hardware, software, and warranty information may be improved or modified by the manufacturer or their respective owners and are subject to change without notice.

From the Home screen, swipe up to access App tray and tap **Settings** > **About tablet** > **Regulatory labels** to view the certification information.

Applicable products have the FCC logo on the product label and/or an FCC ID in the format FCC ID: XXXXXXXXX.

Compliance Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and radiates radio frequency energy and may cause harmful interference to radio communications if not installed and used in accordance with the instructions.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or position the receiving antenna.
- Increase the distance between the device and the receiver.
- Connect the device to an outlet on a circuit different from the one to which the receiver is connected.
- Consult your dealer or an experienced radio/TV technician for assistance.

WARNING: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Certification Information

This device complies with Part 15 of the FCC Rules. The operation must meet the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

CONFORMS TO UL STD 62368-1
CERTIFIED TO CSA STD C22.2 No. 62368-1

Intertek
5024936

The FCC's SAR limit is 1.6 W/kg, with a maximum SAR value of XX W/kg when testing the device for use on the body. The device was tested at 0 mm and meets RF exposure requirements.

FCC Statement

7"core tablet has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Specific Absorption Rate (SAR) information:

7"core tablet meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: 7"core tablet has also been tested against this SAR limit.

This device was tested for typical body-worn operations with the back of the 7"core tablet kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the 7"core tablet. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

ISED Statement

English:This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(B).

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exempts de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

(1) Cet appareil ne doit pas provoquer d'interférences.

(2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

l'appareil numérique du cem conforme canadien pest - 3 (b) / nmb - 3 (b).

conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l' exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

The device for operation in the band 5150–5350 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

Le présent émetteur radio a été approuvé par Industrie Canada pour fonctionner avec les types d'antenne énumérés ci-dessous et ayant un gain admissible maximal. Les types d'antenne non inclus dans cette liste, et dont le gain est This radio transmitter has beenapproved by Industry Canada to operate with the antenna types listedwith themaximum permissible gain indicated. Antenna types not included in this Lapparell destine à fonctionner dans la bande 5150-5350 MHz est uniquement destiné à une utilisation en intérieur afin de réduire le potentiel d'interférences nuisibles aux systèmes mobiles par satellite coexistants.

list, having again greater than the maximum gain indicated for that type, are strictly prohibited forase with this device. supérieur au gain maximal indiqué, sont strictement interdits pour l'exploitation de l'émetteur.

Specific Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. ISED RF Exposure Information and Statement the SAR limit of Canada(ISED) is 1.6 W/kg averaged over one gram of tissue. Devicetypes: Device has also been tested against this SAR limit.

This device was tested for typical body-worn operations with the back of the phone kept 0mm from the body. To maintain compliance with ISED RF exposure requirements, useaccessories that maintain an 0mm separation distance between the user's body andthe back of the phone. The use of belt clips, holsters and similar accessories shouldnot contain metallic components in its assembly. The use of accessories that do notsatisfy these requirements may not comply with ISED RF exposure requirements, andshould be avoided.

Informations sur le taux d'absorption spécifique (SAR) :

Ce dispositif répond aux exigences gouvernementales en matière d'exposition aux ondes radio. Les directives sont basées sur des normes

élaborées par des organismes scientifiques indépendants grâce à une évaluation périodique et approfondie d'études scientifiques. Les normes incluent une marge de sécurité importante conçue pour garantir la sécurité de toutes les personnes, quelle que soit leur âge

ou leur santé. Informations et déclaration sur l'exposition aux ondes RF de l'ISDE. La limite de SAR du Canada (ISDE) est de 1,6 W/kg en moyenne sur un gramme de tissu. Types de dispositif : Le dispositif a également été testé par rapport à cette limite de SAR.

Ce dispositif a été testé pour des utilisations typiques portées sur le corps, le dos du téléphone étant maintenu à 0 mm du corps. Pour

respecter les exigences en matière d'exposition aux ondes RF de l'ISDE, utilisez des accessoires qui maintiennent une distance de séparation de 0 mm entre le corps de l'utilisateur et le dos du téléphone. L'utilisation de porte-mobiles, d'étuis et d'accessoires similaires ne devrait pas

contenir de composants métalliques dans son assemblage. L'utilisation d'accessoires qui ne répondent pas à ces exigences peut ne pas

respecter les exigences en matière d'exposition aux ondes RF de l'ISDE et devrait être évitée.
