

We **Quectel Wireless Solutions Co., Ltd** declare the following models.

Product Name: Smart Module

Model Number: SC600Y-WF, SC600T-WF

Hardware Version: R1.0

SC600Y-WF, SC600T-WF and SC600T-NA ,SC600Y-NA share the same HW design, SC600Y-WF, SC600T-WF just delete WCDMA、LTE related circuit components compare with SC600T-NA ,SC600Y-NA.

So we made the following changes :

1. The model/product name been updated.
2. Remove LTE /WCDMA reports.

WIFI/BT/BLE reports only updated conduct power and all Other data quoted from grant : XMR201911SC600NA, grant data :07/18/2019, Now WIFI / BT / BLE requires a original certificate.FCC ID : XMR201911SC600WF ,and now new original test reports accurately represent test results under the new conditions.

3. Now new original reports , FCC ID : XMR201911SC600WF

R1910A0590-R1 Bluetooth report, Only Conducted power, Unwanted Emissions and Conducted Emissions were tested for SC600T-WF, SC600Y-WF this report. Other conducted test items refer to the SC600Y-NA ,SC600T-NA Module report (Report No. : HR/2019/5000604)

R1910A0590-R2 BLE report, Only Conducted power, Unwanted Emissions and Conducted Emissions were tested for SC600T-WF, SC600Y-WF this report. Other conducted test items refer to the SC600Y-NA ,SC600T-NA Module report (Report No. : HR/2019/5000605).

R1910A0590-R2 WIFI 2.4G report, Only Conducted power, Unwanted Emissions and Conducted Emissions were tested for SC600T-WF, SC600Y-WF this report. Other conducted test items refer to the SC600Y-NA ,SC600T-NA Module report (Report No. : HR/2019/5000602).

R1910A0590-R3 WIFI 5G report, Only Conducted power, Unwanted Emissions and Conducted Emissions were tested for SC600T-WF, SC600Y-WF this report. Other conducted test items refer to the SC600Y-NA ,SC600T-NA Module report (Report No. : HR/2019/5000603).

R1910A0590-M1 report is the new report.
