

Label Location Justification Letter

Subject: Label location request for IC: 10224A-2026FCM365X

Dear Sir or Madam,

For the product with IC number above, the certificate label including IC number are not affixed on the product itself due to below reasons.

The product is just a module, it's hard to print IC number on surface of module due to it's too small size.

To validate the grant of equipment authorization, the IC number will be included in user manual and package label. It is readily viewable at all times for users.

Thank you in advanced!

Best regards.

Signature:

A handwritten signature in black ink, appearing to read 'Jean', is positioned above a solid blue horizontal line.

Printed Name: Jean Hu(April 1, 2026)
